INTRODUCTION

Before You Start, This Scroll Is A Revised Edition Of The First Scroll "The Science Of Creation". As You Read This Edition Of "The Science Of Creation" You Will See A Few Things That Might Seem To Be Contradicting The Old Scroll Written In The Year 1976 A.D. But, It Doesn't. As I Explained Many Times I Came Giving You What You Want So You Can Learn To Want What I Have To Give. When I Explained The Creation In The Old Book, It Was Written From A Muslim Point Of View, In Order That I May Make You Overstand It Better. However, The Creation Story As You Know It From Your Bible Or Qur'aan, Is Only The Creation Of Your Cycle Only. Also It Was A Re-Creation, And A Re-Plenishing Of The Planet Earth, Which Will Be Explained. The Intent Of This Book Is To Release Your Mind From The Misinformation And Give You The Truth And Facts Related To The Science Of Creation And The Origin Of Life. There Have Been Many Hypothesis Or Opinions Concerning This Matter.

*"The Origin Of Life Is A Result Of A Supernatural Event;
That Is Permanently Beyond The Descriptive Powers
Of Physics And Chemistry."*

This Definition Stands Correct, In That It Is Permanently Beyond The Descriptive Powers Of Physics And Chemistry. However, With The Intervention Of The Factual Accounts Of Re-Creation Found Within The Torah 1. Genesis, 2. Exodus, 3. Leviticus, 4. Deuteronomy, 5. Numbers) Or As Your Mistranslators Call It The Old Testament, The Koran (Qur'an) And Many Other Books Which Were All Plagiarized From The Ancient Tablets Known As The Enuma Elish. The Enuma Elish Was Originally Inscribed In Cuneiform, As A Record Of When The ANUNNAQI, Whom The Bible Call The ELOHEEM, NEPHILIM, Or GOD Or ANGELS Came Down To The Planet Earth By Way Of A Craft- Like Planet Called Nibiru, From The Planet Rizq, In The 19th Galaxy Called Ilyuwn. It Is Quite Easy To Explain And Overstand This Affair, The Science Of Creation.

Human Beings And Mankind Have Always Pondered Over The Creation Of The Heavens And The Earth, And The Creator Allah (الله), Which Is The Same As The Aramic (Hebrew) Eloh (אלה), The Source Allahuma (اللهم) Creators, Which Is The Same As The Aramic (Hebrew) Eloheem (אלהים) Who Caused This Creation. Yet, There Are Others Who Would Deny That The Universe Began With The Creator Or Creators. They Would Rather Accept The Idea That The Sun, Planets, Stars And Galaxies And All Life Forms Came About By The Accidental Collision Of Atoms Or Some God, By Himself, In The Universe Saying "Be And It Is" Or In Ashuric/Syriac (Arabic) Kun Faya Kun (كن فيكون). The Creation Of The Universe Kosmos Could Not Have Been An Accident. For One Reason, There Is Order, A Continuous And Consistent Order In The Universe. It Is Impossible For A Chain Of Events To Have Occurred By Accident. In That Case, Accidents Would Still Be The Rule In The Universe. The Key Here Is Time, That Is Human Time - Allah's Time. What Is

The Science Of Creation

One Day To The Eloheem (אלהים) Or Allahuma (الله) Is 1,000 Years To Humans. *Psalms 90:4 And 2 Peters 3:8, Koran 22:47.*

Like Everything Else, Life Began With One Thing In Mind, But There Had To Be A Mind Or Minds And If There Is One Mind It Had To Have A Beginning. And With This Thought, A Thing Became, And Impregnated Itself By The Will Power Of The Aum-Nipotent (Omnipotent), And Split Into Many Things Which You Are One Of. Such As The Rule Of Life. Overstand That When I Speak About The Aum-Nipotent (Omnipotent), I Am Referring To ANU, Meaning "*The Heavenly One*," Who Is Also Known As ALLAH To The Muslims, YAHWEH To The Hebrews, And THEHOS To The Christians. He Is One Of The Great Beings, The One Over All Humans On This Planet Making Him One God. The Origin Of Life And The Science Of Creation Rests Within AL KULUWM (THE ALL). Nothing In Creation Came About By Chance, Everything Was According To Plan And Design. People Without Faith Cannot Acknowledge This, They Would Rather Look For The Answers Elsewhere And In Their Ignorance Keep Fabricating More And More Theories. (See *Humans Were Created From Scroll #17*).

Since The First Publication Of The "*Science Of Creation*," In The Year 1976 A.D. There Have Appeared Many Books And Magazine Articles Concerning This Subject. The Majority Of These Deal With The Theory Called "*The Big Bang*." Supporters Of This Theory Say That The Universe Began With A Cataclysmic Explosion Of Gases, Hydrogen And Helium. They Offer Much Detail About What May Have Been The First Stage Of The Birth Of The Universes. (See *Mission Earth And The Extraterrestrial Involvement Scroll #82*). They Have Given It A New Name "*Science Of Creation*," And Some Daring Scientists Have Incorporated Some Of The Events In The Book Of Genesis Within Their Theories. Attempts Have Even Been Made To Teach It In Schools. While Modern Science May Have Taken A Step In The Right Direction, There Are Still Many Things They Have Yet To Know, And This Right Knowledge Will Evade Them As Long As They Deny The Existence Of The Creator Or Creators. However I Will Teach You. I Want You To See By This, How Superior To Anything Else Is The Right Knowledge Found At *The Holy Tabernacle Ministries*. I Do Not Merely Want You To Read It Like Another Lesson. Please, This Information Was Given To Me By Al Khidr (The Green One). At The Junction Of The Two Niles, In Sudan, Africa Before He Incarnated Into Me. You Are Therefore Being Exposed To Divine And Sacred Information That Is Not To Be Misused And Wasted.

In Your Studies Of The "*Science Of Creation*," It Is Expected That You Use The Evidence Presented Here For The Benefit Of Overstanding The Origin Of Your Immediate * Environment. In Order For The Spell Of Ignorance To Be Lifted, Impress Upon Your Minds, The Right Knowledge, The Root Of Any Subject.

Ques: Can You Explain What Does The Word "Create" Really Mean?

Ans: When You Take A Look At The Word Create You Can Find It's Meaning Through The Eyes Of Science. According To "Funk & Wagnalls New Comprehensive International

Dictionary Of The English Language," The Word Create Is Defined As: "To Cause To Come Into Existence; Originate, To Be The Cause Of, To Be Produce, To Be The First."

A Large Majority Of The Population Sees Creation As Causing Something To Come Into Existence That Did Not Exist Before, To Originate And To Be The First. All Of These Definitions Of The Word Are Telling You That Creation Is Something That Happens At A Moment In Time, But This Is Not Fact. Creation Is Something That Happens Over A Period Of Time, However It Has To Have One Point To Start From. *

This Is Important For The Mental State Of You Humans. Because Without This Fact, You Will Go On Being Caught Up In Spookism; Thinking That Some All Powerful Aum-Nipotent (Omnipotent), All Seeing Aum-Niscient (Omniscient), All Present Aum-Nipresent (Omnipresent) Individual God With A Magic Wand Simply Decided To Create The Solar System With All The Planets, Animals And Man Then "**Ta-Daa!**" It Happens At The Snap Of A Finger, He Who Has No Beginning, Or End. Some Even Say He Is **The First, El Awwal** (الاول) And **The Last, El Aakhir** (الاخر) Or The **Alpha (A)** And **Omega (Ω)**. Still, They Can't Say Where He Came From, Who Created Or Gave Birth To Him. They Will Just Avoid This Point, Or Call You Names For Asking. They Make You Afraid To Even Ask Yourself, Where Did He God, Allah, Yahweh, Thehos, She Or It Originate.

Look At The Word Creation, The Root To Finding Out The True Meaning Of This Word Is By Examining The Word Itself. The Word Creation Is Made Up Of The Root Word "**Create**". In The English Language It Is Classified As A Verb, Thus Making It An Action That Is Carried Out. Create Means To "Bring About A Thing; To Anew, Or For The Very First Time, Bring Something Into Existence." The Suffix "-ion" When Applied To The End Of A Verb, Turns The Word Into A Noun, Which Is A Person, Place Or Thing. So, The Word "**Create**" With The Suffix "-ion" Added On Turns The Act - "**Create**" Into A State Or Condition Of Create; And A Condition Is Defined As "An Agreement, To Agree Upon, Or To Talk Over." This Would Also Mean That It Was Something That Took Some Time To Happen.

When Analyzing Any Other Verb And Adding - **ion** To It, You Will Find That In Which Ever Language You Speak It, And That Alone Tells You, You Don't Know. Because When You Analyze The Word Create, It's Always From Someone Else's Point Of View. That's Why I Tell You When You Define Any Word, You Must Define It From It's Original Language. Not By The Person's Translation Or That Person Is Defining The Words For You.

By Adding -**ion** To The Verb, You Are Saying That The Action Happened Over A Period Of Time Rather Than Instantly. This Can Be Seen In The Case Of The Word Decide Which Means To Settle; By Adding "-ion" Onto "**Decide**"; The Word Becomes Decision - Which Is A Process. Whether A Thought Process, That Happens Over Time. This Clearly Proves

The Science Of Creation

Instance, As Today's Religions Would Have You Believe. Thus, Because Of The Suffix "-ion" The Word "Create" Cannot Be Some Mystical, Or Magical Feat That A "Creator" Just Instantaneously Performed, By The Will Of His Hand.

Overstanding The English Word "Creation", Is An Important Step In Overstanding Everything In Your Universe, Including The Composure Of Your Universe, The Same Thing Happens In Aramic (Hebrew) And Ashuric/Syriac (Arabic), Just As It Happened In English, With The Word Creation. There Are Some Things In Your Universe That Are Beyond Your Comprehension, Because Your Definitions, Your Interpretations, Your Explanations Are All Within Your Circles Of Time. Everything Keeps Leading Back To Your Definition Of Some Movie You Were Shown. Then When I Try To Tell You Things, I Have To Relate Everything To What You Know, According To Your Definitions. You Are In A Vacuum Of Laws, Time, Space, And Information. Just Like When Using The English Language, Take A Word, Any Word, When Trying To Overstand What You Would Call A Foreign Language. You Try To Associate The Definition That Is Set By English Standards, Or Whatever Language You Speak. Your Information Is Limited, Your Space Is Limited, And Your Time Is Limited. You Are Trapped Within A Vacuum Where Everything Must Be Defined In The Category Of Person, Place, Or Thing. You Can't Even Think Of A Number Greater Than The Number Nine. Therefore In Trying To Explain "Everything" In The Universe To You, I Will Have To Try To Put Them Into Terms, Or Within These Categories That You Overstand, And In The Process Take Away From What I Am Trying To Explain To You.

Ques: How Is This?

Ans: As I Explained To You, There Are Some Things That Are Beyond Your Level Of Overstanding, You Cannot Comprehend Them Right Now. You See, When I Try To Tell You Things Outside Of Your Circle, Or Your Comprehension, Which Is Persons, Places, And Things - Solid, Liquid, Gas (God, Man, Devil), I Have To Try And Break It Down To Where You'd Best Overstand, Just Like, The Word Creation, Or Beginning.

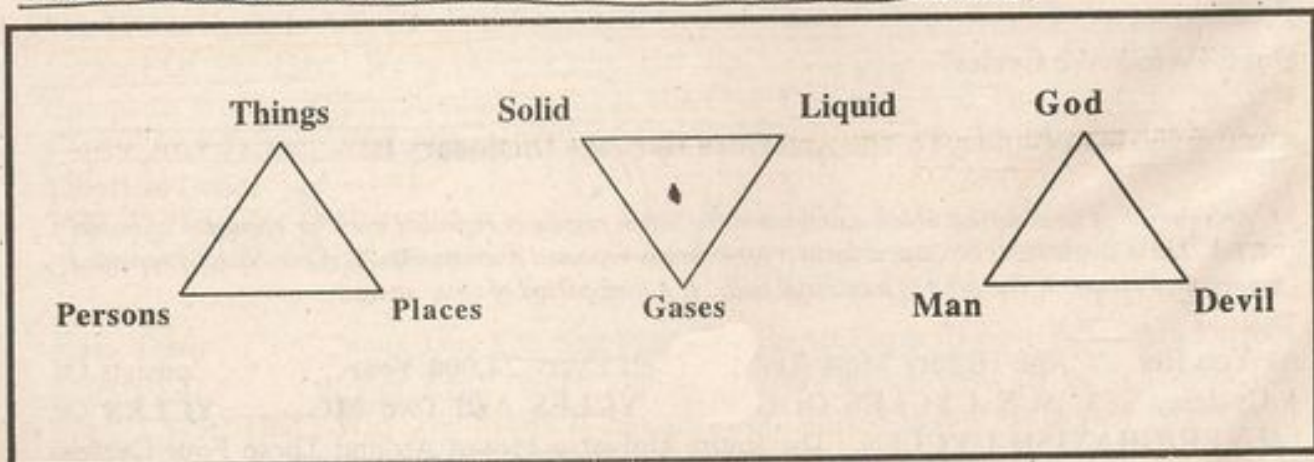

Diagram 1,
Your Comprehension

Ques: What Does The Word Beginning Mean?

Ans: The Beginning Means *"The First Time"* Of Something. In The Mistranslated King James Version From The Aramic (Hebrew) Of *Genesis 1:1* It Says ("In The Beginning God Created...") As Translated In English, However This English Translation In Your Bible In *Genesis "Chapter 1 Verse-1"*, Using The Word "Create" Is Incorrect, Because The Word Being Used Is **Bara** (ברא) In Aramic Hebrew, Which Means *"Reconstruction"* Not Creation. The Correct Word For Creation Would Be **Khalafa** (חלף) In Aramic (Hebrew) And In Ashuric/Syriac (Arabic) (خلق) **Khalqu**, Meaning *"The Creation"* And It Is Not Used In This Case.

Ques: What Is The Difference Between The Word Khalafa And Bara?

Ans: The Difference Between The Word **Khalafa** And **Bara** Is That The Word **Bara** (ברא) In Aramic (Hebrew) And **Bara** (برى) In Ashuric/Syriac (Arabic), Means To *"Re-Construct, Re-Create, Or Re-Model Something That Already Existed, Was Pro-Created Or Make"*; This Refers To The 12th Attribute, **El Baariy** (البارى) Meaning *"The Maker."* This Is The Same Word As **Bara** (ברא) In *Genesis 1:1*. The Words Used For *Make* Is Also **Ja'ala** (جعل), **Sana'a** (صنع) Or **'Amala** (عمل), *Or To Do Or Make*. Whereas, The Word Meaning *Create* In Aramic (Hebrew) Is **Khalafa** (חלף), Which Is The Same As **Khalafa** (خلق) In Ashuric/Syriac (Arabic). **El Khaaliq** (الخالق) The 11th Attribute, Means *"The Creator"*. So You See They Played Games With Words. Therefore, The Creation Story As You Know It Is Not Really Creation, But A Re-Creation Or Re-Construction Which Is Bara, Not Khalafa. This Took Place 49,000 Years Ago, Which Is One 24,000 Years (1 Complete Cycle) And Another 24,000 Years (1 Complete Cycle) Equaling 48,000 Years And The Short 1,000 Years To Two Equinoxes Or Two Sets Of Cycles, When Your (Zakar) Adam And (Nekayhaw) Eve Were Procreated.

Ques: What Are Cycles?

Ans: A Cycle According To The American Heritage Dictionary Is:

1. An interval of time during which a characteristic, often regularly repeated event or sequence of events occurs. 2.a. A single complete execution of a periodically repeated phenomenon. b. A periodically repeated sequence of events. 3. The orbit of a celestial body. 4. A long period of time; an age.

As You Recall, Your History Must Re-New Itself Every 24,000 Years, Which Consists Of 4 Cycles; Two **SUN CYCLES** Or **GOLD CYCLES** And Two **MOON CYCLES** Or **SILVER/GRAYISH CYCLES**. The Entire Universe Moves Around These Four Cycles. Your Entire Solar System Is A Part Of A Bigger System Known As The Milky Way, Which Moves Every 24,000 Years.

The Science Of Creation

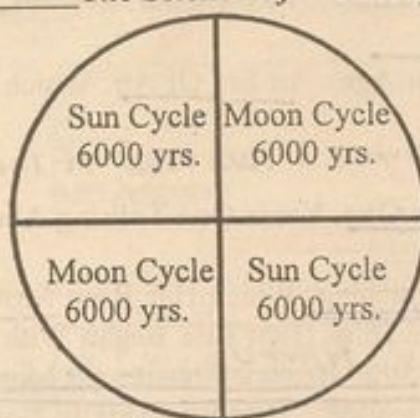

Diagram 1a
The 24,000 Year Cycle

Figure 1
The Milky Way

The Moon Cycle Is A Symbol Of The Night Or The Shadow Hour And The Sun Cycle Is A Symbol Of The Day. We're Moving Into The Sun Cycle Because As A Galaxy Makes A Complete Wobbly Circle Around Its Sun^{24,000} Called An Equinox, And The Planet Earth Gets Closer And Farther Away From The Sun At Different Times In Its Motion Due To Its Elliptical Orbit.

Ques: What Is A Solar Era?

Ans: During The Periods That The Sun Pulls The Planet Earth Closest To It, Are Periods Referred To As The ^{Summer} Solar Era. When The Earth Gets Farther Away From It, That Is The Moon Cycle, That's Why The Moon Is Synonymous With **Shadow Hours Or Night** And The Sun Is Synonymous With **Earlier Daylight Hours**. This Happens Every 6,000 Years. We Are Getting Ready To Come Back Into The Sun Cycle; Now Since 1970 A.D. With The Opening Of The 7th Seal We Have Left The Era Of The Piscean Age And Moved

The Science Of Creation

Into The Era Of The Aquarian Age. An Era Of Air, Which Utilizes Laser Beams, Video, And Ultra Violet Rays, Etc.

Ques: What Is Genesis Chapter One, Verse One Talking About?

Ans: This Was The Third Replenishing, Which Has Been Mistranslated In Your Bible As The Original Creation, You Want To Think That Life Began With The Creation Of Your Kind Of Being, Adamites, Seed Of Adam Who Became Enosites Or Mortals. There Was More Than One Replenishing Before Your Re-Creation. However This Is Not Recorded In The Bible Which Was Written 6,000 Years Ago By Jews, 2,000 Years Ago For The New Testament By The Christians, And 1,600 Years Ago For The Muslims In The Qur'aan. This Replenishing Happened 24 Billion Years After The 4Th Wind Of Nibiru Crashed Into Tiamat, And The Planet Shattered Into Two Pieces Bringing About The Re-Creating Of What You Call The Planet Earth And The Moon Today. (Refer To Mission Earth, Scroll #82). The Planet Earth/Qi Was Replenished Again, And Life Forms Were Formed From Protozoa And Other Small Life Forms. As You Read Further, The Story Of Creation, You Will Overstand What The Torah (Old Testament) And Koran (Qur'aan) Really Meant.

Ques: What Does The Word Genesis Mean:

Ans: Genealogy Of Isis Is What The Word Genesis Really Means. In The Greek Language Genesis Is **Gennesis**, (Ghen'-Nay-Sis, γενεσις), From **Genos**, **Ghen-Os**, Meaning Kind Or Kindred, And Also **Gennao**, (Ghen'-Nah-O, γεννάω); To Pro-Create Of A Father, But By Extension Of A Mother, To Be Delivered Of, Or To Regenerate, Conceive Or Be Born; And The Word **Genealogia**, (Ghen-El-Al-Og-Eh-O, γενεαλογεώ) Meaning "Tracing By Generations." With Many Religious Sects The First Scroll Is Interpreted As Genesis

Ques: What Is The Original Word For Genesis:

Ans: Genesis Was Originally Known As **Barashith** (בראשית) In The Aramic (Hebrew). Phonetically You Can See Bara And Shith Is Replenish With Seth's Genes Who Was **Enos** (עֵנֹשׁ), Meaning "Mortal". In Genesis 4:26 You See Adam, Seth, Enos, Seed Of A Human Who Worships A Yahweh As The Deity Appointed To Them, **Genesis 4:26** Is Also When Man Began To Call On The Name Of Yahweh. Now The Word Barashith As A Word Actually Means "The Re-Construction Period, To Construct Again." Not The Very Beginning Or Origin As Some Translations May Say.

IN THE BEGINNING

In Order To Create Something, El Elohim Created A State Of Nothingness, In Which To Place The 99 Elements Or Attributes. This, Is The Beginning Of The Supernatural, Yet, Physical Creation Of The Sun.

The Beginning Existed By Using The Science Of The "Circle", And The "Square." He Performed A Feat Which May Be Considered Impossible By Some Circles. He Took The Infinite, And Formed The Circle And The Square. He Then Took The Circle, Turned It Inside Out And Produced The State Of "Emptiness"-- **Bohoo** (Empty) And "Desolate" **Tohoo** (Darkness); And "Darkness" **Khoshek**. *Genesis 1:2 (Refer To The Holy Tablets Chapter One El Khalqu, The Creation)* Yet, How Can Two Shapes Be Totally Opposite

Yet Equal In Quantity? Only The Creator Can Make This Happen. Look Closer At What I Have Said, And You Will Discover The Meaning.

Now, In Studying The Science Of Geometry Or Geo = Earth Or Qi, We Learn That: "If Quantities Are Equal To The Same Quantities" Or If Quantities Are Equal To The Same Quantities Or Equal Quantities, They Are Equal To Each Other.

OR

"If The Circle And The Square Are Both Equal To 360 Degrees, Then, They Are Equal To Each Other."

The Square = 7

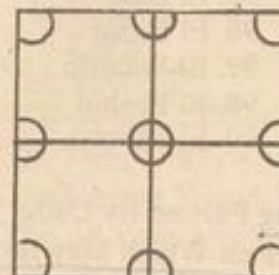

Diagram 4
The Square

The Four Parts, El Elohim Of The Eloheem Caused To Merge And Form.

The Square And The Circle Equal The Same And They Have The Same Magnetic Charge.

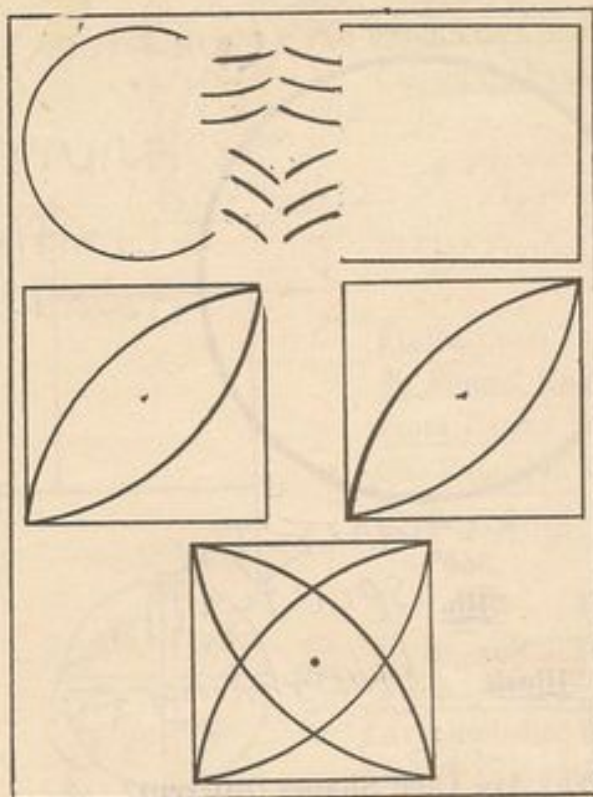

Diagram 5
Energy Within The Square

Ques: What Happens When Two Like (The Same) Charges Are Put Together?

Ans: They Push Away From Each Other -- They Repel. But, Because Of The Tremendous Force And Pressure Of Fusion -- A Force That Made Them Act, Thus Submitting Contrary To Their Natural Act Of Repelling.

Two Distinct "Incomplete" Squares Formed, And After Further Subjection To The Intense Commandment Of El Yahuwa, El Eloh, Of The Eloheem, They Merged Together To Form,

One Single, Complete Square. The Center Of Each Square And Each Circle Became As One. If You Look Closely, You Will See Each Quarter Of The Circle Within The Square. This Vast Energy, Was Trapped Within The Square And Was Not Able To Escape.

Ques: Why Did This El Eloh, Yahuwa Of The Eloheem Not Put This Energy Within The Confines Of A Triangle Or Some Other Geometric Figure?

Ans: El Eloh Who Is Also Called Allah Deals With Perfection And Thereby Completion Which Equals 360° Degrees. The Triangle, Whether Acute, Obtuse Or Right-Angled, Does Not Total 360° Degrees And Is Therefore, Incomplete. These As Well As All Other Geometric Figures, Originated From The Circle. Yet, The (Stability) Of The (Square) Was Most Suitable For The Harnessing Of The Busy Energy. Think, Now, If You Wanted To Package A Set Of Expensive Chinaware, Would You Place It In A Box-Like Object Or Would You Use A Triangular Or Circular Shaped Receptacle? Of Course The Box-Shaped Vessel Would Be Your First Preference, Think Of The Cube Or Kaaba. It Is For The Same Reason That The Square Was Chosen To Contain The "Restless Energy."

Diagram 7

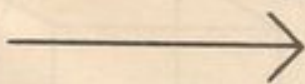

The Circle Is Equal To The Square

Ques: If The Circle And The Square Are Equal, Why Are Their Shapes Different?

Ans: Shapes Create "Illusions," Making Objects Appear Other Than What They Actually Are. These Two Shapes Appear To Be Different But In Examining Their Mathematical Properties, You Will Find That They Are The Same.

Ques: How Did The Square And Circle Come About?

Ans: First, El Eloh Created Nothingness Then:

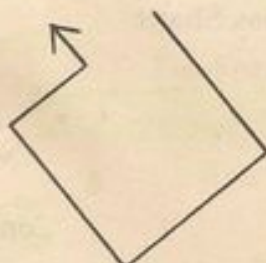

AS ABOVE...

El Eloh Took The Finite

And Formed The Circle Which Is Infinite. Once Closed You Can't Find The Beginning Or End Only He Who Closed It Knows

Infinite From The Latin *Infinitus*, Meaning "Boundless, Unlimited, Endless". It Has Neither Beginning Nor End. No Distinct Points Of Direction. All Points Are The Same Distance

From The Center (•) To The Circumference Of The Circle, And Cannot Be Extended In Any Direction (Extreme.)

THEN

El Elohim Formed The Square

Finite, From The Latin *Finitus* Or *Finere* Meaning "To Set Limits, To Bound, End Finish" It Has Four Points Of Direction. Points From Center To Perimeter Are Not The Same Distance. Lines Can Extend In More Than One Direction -- Extreme.

THEN,

El Elohim Took The O (Circle) And Turned It Inside Out And Placed It Within The Confines Of The Square. This Was Accomplished By First Dividing The Circle Into Four Parts.

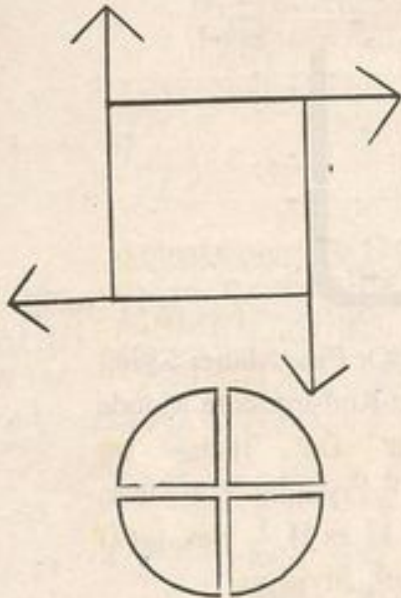

Diagram 8

The Square That We Know On This Plane Was Not The Same Which El Elohim Dealt With. He Dealt With It's Counterpart On The "Spiritual Plane" And The "Plane Of Force." These Planes Are Not Perceived By The Ordinary Human Eye. The Energy Which Was Confined In The Square Tried To Escape. It Pushed Upward, Outward And Downward. This Constant Friction Generated Heat To The Degree That The Square Could No Longer Withstand, And An Explosion Of Enormous Force Occurred. This Grand Event Had Yet To Be Manifested On The Physical Plane, As The Birth Of The Universe -- The Formation Of Stars, Galaxies And Planets.

THE PLANES

The Highest And Lowest Form That Has Been Detected, Is That Of Vibration. Everything Is Vibration, Which Manifests Itself In Different Moods And Schemes. The Expression Of A Vibration Is Called A **Mood**. Each Mood Acts And Reacts Continuously, Carrying Out The Life Processes. These Moods Make Up What Is Known To Us As **Planes**. Planes Are Moods And Schemes Of Vibration, Existing In Very Unique, And Unified Forms. Moods Of Vibration May Be Likened To The Varying Degrees Of Temperature, Such As Extremely Low. The Natural Mood Of Vibration Ranges From Very High, And Fast To Very Low And Slow. There Are Seven Planes, The Lowest And Slowest Is The Material Plane, While The Fastest And Highest Is The Plane Where One Is In Total Union With The All, El Kuluwm.

The Most Common Mistake Is Imagining Planes As Layers Of Strata, Or Fine Matter Lying One Above The Other In Space. This Is Incorrect. Planes Are Distinct And Intricate Moods Of Vibration, Woven Into One Another So Uniquely That One Cannot Determine Where One Plane Begins And The Other Ends. Nothing In Creation Rests. Everything You Hear, Taste, Or Feel Vibrates. Keep In Mind That The Seven Heavens Or Planes Have Seven (7) Sub-Planes And Each Of These Sub-Planes Have Its Own Seven (7) Sub-Division.

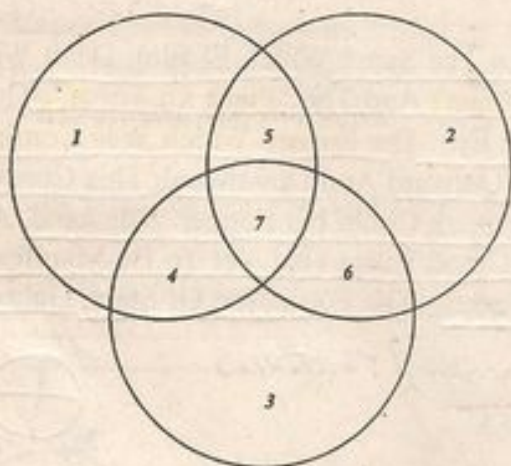

Diagram 9
The Seven Heavens (Planes)

The Material Plane Is The Plane Upon Which Human Beings Dwell. This Plane Is Partly Made Of Solids, Liquids, And Gases. Now You May Feel That Everything That Exist, Exists Only On This Physical Plane; Meaning That Nothing Extra Exists Outside Of This Plane. Unfortunately, You Are Wrong. And If You Think That The Answers To All Puzzling Occurrences And Strange Phenomenon Are To Be Found In This World, Then You Are Mistaken. Contrary To What You May Imagine There Is Still Much Yet To Be Discovered On This Plane.

Western Scientists Limit The Physical Plane To Just Three Substances: Solids, Liquids, And Gases. However, There Are Many More Forms Or States Of Being Within The Physical Plane Than Just The Three Mentioned. It Is Obvious That The Higher Forms Of Matter Are Unknown And Unfeasible To Western Science.

This Fourth Classification Is Called "Ultra Gaseous Matter." It Is Also Known That Beyond This Fourth Classification (Sub-Plane) Of Matter There Are Still Three Higher And More Intricate Sub-Planes (Of Which The Scientific "Speculators" Of The Western World Have No Idea) The Physical Plane, The Lowest Of All Planes, Has The Least And Slowest Speed Of Vibration. The More One Becomes Involved With The Physical Aspects Of Life, The Less The Chances Are For Elevation From This Bottom Most State Of Existence, Where All Is Given To Low Desires. If Human Beings Are To Achieve This Raising Or Elevation, You Must Struggle With Sincerity, Fact, Faith And Discipline. The Lower Division Of The Physical Is Made Of Solids, Liquids, And Gases Which Is Able To Be Detected By Your 5 Foremost Physical Senses Which Are Really One.

1. See 2. Hear 3. Taste 4. Smell 5. Feel

Ques: What Do You Mean We Really Have One Sense?

Ans: When You Condense The Five Human Senses You Actually Come Out With One Sense: And That Is The Sense Of Feel (Touch) Because "Taste" Is A Sense Of Touch - Matter Touches Taste Buds And "Smell" Is Also A Sense Of Touch - Particles Touch Nerves React To Smell. Hear Is A Sense Of Touch Because Sound Waves Touch The Eardrum Then Causes It To Vibrate. See Is Also A Sense Of Touch Because Light Has To Touch The Cornea To Enter The Iris Which Enables You To See. Humans Once Had Four Higher Senses Which Are: Telepathy Which Is Mental Communication Or The Transference Of Thoughts From One Being To Another Without The Use Of Words Or Wires, Intuition-Which Is The Quick Perception Of Truth By The Mind Without The Intervention Of Any Process Of Thought, Psychometry Which Is Object Reading, The Ability To Identify Or Tell Something About An Object By Picking Up Thought Waves Implanted By Someone Previously Associated With The Article. Lastly, There Is Clairvoyance Which Is The Ability To See Into Other Dimensions, Second Sight-An Awareness Of Distinct Objects And Events. You Were Endowed With All Of These Senses When You Had A Gland Called The Barathary Gland (Refer To The Birth Ceremony, Scroll #50 And Baptism Ceremony, Scroll #51). These Four Higher Senses Also Come Down To One Sense, Perception. Telepathy, Psychometry, Intuition, And Clairvoyance Are All A Sense Of Perception. When You Get To The Five Physical Senses It Is Already Established That They Are All One, Touch. And To Touch Is To Perceive. Thus, You Only Have One Sense And That Is Perception.

1. Telepathy- Mental Communication-The Transference Of Thoughts From One Being To Another Without The Use Of Words Or Wires.

2. Intuition-The Quick Perception Of Truth By The Mind Without The Intervention Of Any Process Of Thought.

3. Psychometry - Object Reading, The Ability To Identify Or Tell Something About An Object By Picking Up Thought Waves Implanted By Someone Previously Associated With The Article.

4. Clairvoyance-Clear Sight To See Into The Other Dimensions. Second Sight-(An Awareness Of Distinct Objects And Events)

Ques: What Are The Etheric Forces?

Ans: The Forces Or Degrees Of The Physical That Are Linked With The Next Plane (The Plane Of Force) Are The "Etheric Forces," Which Incidentally Includes The Fourth (4th) Sub-Plane Of The Physical Matter (Ultra Gaseous Matter). The Remaining Forces Are: Life Force, Light And Mental. These Are Merely One Sub-Division Of The Seven (7) Sub-Divisions Of The First Material Or Physical Plane. The Etheric Division Of The Physical Plane Is Composed Of The Same Elements As The Lower Division, But Vibrates At A Higher Frequency. Therefore, When Totally Relating To The Physical State One Is Unable To Detect Them With The Physical Senses.

Very Few Are Aware, And Even A Smaller Group Are Able To Achieve Access To The Etheric Level Of Their Senses In Order To Detect These Planes. Each Of These Senses, Like The Planes, Or Heavens, Have Sub-Degrees Of Detection. You Can Conclusively Say That One Can Elevate His Way Of Discovering The Presence Of Senses In Correspondence To Each Plane, As Well As Sub-Plane. If One Could Not, Then One Would Not Even Be Aware That He Has Elevated.

Ques: Is It Really Possible To Elevate?

Ans: The Key To Elevation Of The Physical And Freedom From The Material Plane Is The Mastering Of Desire. You Can Learn More About This In The Ancient Mystic Order Of Melchizedek (A.M.O.M.) The Entire Existence Of And Bondage To The Physical Plane Is Based On Desire. This Is What The Great Siddhartha Guatama Buddha 560 - 480 B.C Meant When He Came To The Ultimate Conclusion That "Desire Is The Lead To Suffering." You See, Once One Has Given Up The Desire For The Material Things Of This World, The Person Either Becomes Free To Travel Through The Planes At Will, As Did Muhammad Son Of Abdullat And Amina: At Which Time He Is Called Salig/Saliq (سليق) "Traveler", Or He Dies And Completes The Final Journey.

Keep In Mind That The Etheric Region Of The Physical Plane Interpenetrates The Dense Solids, Liquids And Gaseous Portions Of The Physical Plane, And Is Just As Much A Part Of You As Anything Composed Of Dense Matter. All Of Your So-Called Seven Senses Are Not Activated, Because Your Barathary Gland Has Been Removed. You Are Not Aware Of The Etheric Forces. Your Etheric Body, Or That Part Of You That Is Composed Of 9 Ethers, Is Called The "Body Of Life" Or The "Body Of Vitality," Without Which The Denser Part Of You Would Not Be Able To Live. When I Say "Body," I Do Not Mean Another Body Apart From Yourself, Or Another Form Possessing An Individual Intellect Or Personality. I Only Mean Another Shadowy Stage Of Yourself. What Supplies This Body With Vitality? Energies Supply This Body And These Energies Are Directed And Controlled By The Plane Of Force.

THE PLANE OF FORCE

The Plane Of Force, Which Is The Second Plane, Is Where The Ultra Fine Ethers Penetrate The Higher Regions Of The Physical Plane. This All Results In What You Detect With Your Physical Senses. The Plane Of Force Is All Around Us And Is As Much A Part Of Your Makeup As The Previously Mentioned Plane. Just As You Are Not Able To Detect The Higher Ethers, 9⁹ Nine To The Ninth Power Of Nine, Because Your Senses Are Not Conditioned.

Very Little Knowledge Of The Plane Of Force/Exists Outside Of/A.M.O.M). The Peaceful Way, (Real Sufi Islam, The Pure Sufi Or Sons Of The Green Light, Though Western Scientific Research On Activity Is Leading Them To Further Knowledge Of This Plane. The Plane Of Force Is Not Different From, Or Opposed To, The Material Plane. The Plane Of

Force And The Material Plane Work Together In Perfect Harmony. If This Were Not True, Then The Cycles Of Nature Would Not Be Completed So Perfectly And Faithfully Each Year. The Plane Of Force Is Largely Composed Of Etheric Duplicates Of Objects On The Physical Plane. However, Beyond This Realm Of Etheric Duplicates Is A Vast Reservoir Of Forces Which Very Few Have Knowledge Of. These Forces Control The Forces That Result In What We Know To Be Nature. These Higher Forces Can Also Be Held Accountable For The Many So-Called 'Wonders' And 'Supernatural' Phenomenon Of The Material Plane.

The Plane Of Force, Also Called The Energy Plane, Consists Of Ordinary Forms Of Energy Like Heat, Light, Attraction, Electricity, Etc., As Well As Those Forms Of Energy Which Are Finer, That Gives Human Beings And Nature Vitality And The Ability To Grow And Reproduce. This Vital Force Which Sets Life On The Physical (Into Motion) And Is Responsible For Growth And Reproduction Is Called (Nafas) نفس In Ashuric/Syric Arabic

Also Known As ("Prana.") To The Hindus, And In Aramic (Hebrew) The Word Nafesh (נפש) Means "Breath."

Genesis 2:7

Modern Hebrew Script

וַיִּצָּר יְהוָה אֱלֹהִים אֶת-הָאָדָם עֹפֶר מִזֶּה-הָאֲדָמָה וַיִּפֹּחַ בְּאַפִּיר נְשָׁמָה
חַיִּים וַיְהִי הָאָדָם לְנֶפֶשׁ חַיָּה:

WA (AND) YAHUWA OF HA (THE) ELOHEEM YAW-SAR' (SHAPED) AW-DAWM' (THOSE OF THE GROUND, ADAMITES) FROM THE AW-FAWR' (CLOTTED BLOOD) OF THE AD-AW-MAW' (THOSE OF THE GROUND, ADAMITES, EARTHLINGS), WA (AND) NAW-FAKH' (BREATHED) INTO HIS AF (NOSTRILS) THE NESH-AW-MAW' (BREATH) OF KHAY-EEM (DIVINE LIFE); WA (AND) HA (THE) AW-DAWM' (THOSE OF THE GROUND, ADAMITES, EARTHLINGS) YEH-HE' (BECAME) A KHAY-EE (LIVING) NEH'-FESH (SPIRIT).

And Yahuwa Of The Eloheem Shaped Kadmon (Adam) From Ninti's Clot Of Granulated Blood From The People Of The Ground, They Gave Him The Breath Of Divine Life And Kadmon (Adam) Was Born A Spirit.

Right Translation In Aramic (Hebrew) By:

Dr. Malachi Z. York

Mistranslation For King James 1611 A.D.

"AND THE LORD GOD FORMED MAN OF THE DUST OF THE GROUND, AND BREATHED INTO HIS NOSTRILS THE BREATH OF LIFE; AND MAN BECAME A LIVING SOUL."

Every Action And Reaction Of (Growth) And (Reproduction) Is Resulted From Nafas, The Life Force. Nafas Harmonizes The Entire Life Processes Of Human Beings And Nature, Because Nafas Is Constant Of Rhythmic Pulsation. In Nature, We Call This Harmonization Seasons. The Plane Of Force Is Perfectly Woven Into All Matter On The Material Plane. The Basis Or (Mother Of Matter) Is (Nature), And Nature Is Resulted From The Plane Of Force. On This Plane Of Force, One Is Not Subject To Gravitation, Or At Least Not The Same Degrees Of Gravitation. Gravitation, As Well As The Rest Of The Forces That Control Earth, Are On A Highly Refined Basis On The Force Plane. The Plane Of Force Is Governed By A Very Positive Force Called "Attraction," Not "Desire" As On The Physical Plane. In Order To Escape The Realm Of The Force Plane, One Must Be Able To Resist This Attraction. If One Does Not, He May Suffer Total Infatuation With This Plane.

On The Plane Of Force, Matter Is Not Solid, Liquid, Or Gas As We Overstand It To Be On The Material Plane, But Much More Refined Because It Is Vibrating At A Much Higher Speed. Even The Light Of The Sun (As Well As The Sun Itself) Has Its Counterpart On The Plane Of Force. As Stated Before, The Plane Of Force Is Governed By Attraction. This Is Because Everything On This Plane Has Positive Reality Which Will Normally Result In Attraction; In Turn, Taking Its Affect On The Material Plane. The Plane Of Force Is Also Divided Into Seven (7) Sub-Divisions, Which Are In Turn Sub-Divided.

Planes Have No Spatial Distinction Of Degree. Each Plane Blends Into The Other, Overlapping, Therefore Having A Common Area Of Space. A Single Point Of Space May Have Manifestations On All Of The Seven Planes Of Being. The MOODS OF VIBRATION Can Also Be Likened To A Bike Wheel. When Spun Very Fast The Spokes Seem To Disappear, Until The Wheel Begins To Slow Down; Gradually Making The Spokes More And More Visible To The Physical Eye, Until The Wheel Becomes Completely Still. You Will Notice That You Are Not Able To Say Exactly When The Spoke Become Visible, But You Know That They Gradually Do Become Visible. You Should Have Also Noticed That When The Wheel Was At High Speed, It Appeared To Be Still Or As If It Had Stopped.

Passage Through The Seven Planes Is Like The Snap Of Seven Rubber Bands Consecutively. Picture In Your Mind Seven Rubber Bands Stretched To Different Degrees Of Tightness With Some Sort Of Device Holding Them Adjacent (To Lie Near) To Each Other. The First Band Being Sort Of Loose, The Rest Gradually Getting Tighter Until The Last Is Stretched The Tightest. Now Pluck Each Band Successively, Starting With The Loose Band And Working Your Way To The Tightest.

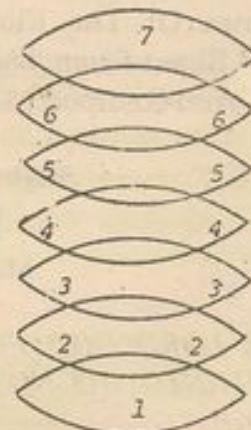

Diagram 12

The Science Of Creation

This Is A Simplified Example Of The Seven "Master Moods Of Vibration." You Should Have Noticed Each Rubber Band Vibrating Longer, Louder, And Clearer Than The Preceding Band; Ending With The Tightest Band Vibrating Loudest And Clearest Of Them All, And Each Stopping One After Another.

THE SPIRITUAL PLANE

Third Of The Seven Planes Is The Spiritual Plane, Also Called The Astral Plane. On The Spiritual Plane, We Discover We Have Another Set Of Senses, But These Are Much Different Than The Set Of Senses That We Are Familiar With. They Are Our Spiritual Senses. Though They Are Spiritual, They May Be Considered Counterparts Of Our Physical Senses (Both Of Which Are Seven) (7) In Number. The Spiritual Plane Is The Plane Of Judgment On Which You Decide Whether You Move To A Higher Plane, Or Burn Out Your Desire For The Physical Plane.

The Spiritual Plane Is Where You Exhaust All Individuality, Such As Pride, Conceit, Greed, Envy, Hunger, Fear, Hate, Jealousy, Etc. Just A Few Of The Things Which Give You The Ability To Say, "I." (Refer To The Mind Scroll #78) As Expressed Before, This Is The Plane Of Judgment, By Which Human Beings Are Judged "By Sins," Rather Than For Them! This Plane Decides Your Permanent Destination. Humans Disciplined Enough On The Physical Plane Are Able To Exercise Their Secondary Set Of Senses, Making It Possible To Receive Impressions And Visualize The Spiritual Body, Which Is Seen In The Form Of A Vaporous Matter Often Referred To As Ghosts. Ghost Is Conscious Gases Which Has Less Various Gases In It Than Six Ether. Therefore Ghost Is A Weaker Gas Combination Than Six Ether, Just As Six Ether Is Weaker Than Nine Ether. Nine Ether Is Effective Fluid Fire. Ghostation Or (Tertiary Creation) Was Done By God (Ghost) 6 Thousand (6,000) Years Ago. (Refer To What Is Nuwau-Bu Scroll # 47)

These Spiritual Senses Function On The Spiritual Plane With The Spiritual Body, Just As Our Physical Senses Do On The Material Plane Within The Physical Body. The Spiritual Body And Senses Are Attached To Our Physical Form By A Very Thin Cobweb-Like Etheric Cord Invisible To The Naked Eye. Through Our Spiritual Senses, We May Also Contact Someone Who Has Died And Is Residing On The Spiritual Plane. This Plane Can

The Science Of Creation

Be Contacted As Well As Visited By Accident. Persons May Also Be Called Down From This Plane. Ordinarily, Spiritual Bodies Go Unseen When Visiting The Material Plane. But Under Certain Conditions, It Takes On The Resemblance Of A Vapory Form Of Matter And Becomes Visible To The Physical Eye As A Ghost Or Apparition. (Refer To What Is Nuwau-Bu Scroll # 41) **The Spiritual Plane May Be Visited Without Death.** However, Not Everyone Can Do So. The Ascension Can Only Be Completed By Those Pure In Heart And Well Disciplined. One May Not Pass Directly From The Physical Plane To The Spiritual Plane.

Upon Reaching The Spiritual Plane, According To Your Deeds, It Is Determined Whether Or Not You Proceed Or Recycle Into Incarnation (Possessing Human Form). The Spiritual Body, Which Is The Shell Of The Soul, Houses It On The Spiritual Plane. The Spiritual Body May Continue To Live For An Extended Amount Of Years Depending On The Spiritual Status Of The Individual. However, We Do Not Keep The Spiritual Body After We Have Elevated From The Spiritual Plane. One May Ascend To The Spiritual Plane Without Death Of The Physical Body, Or Without Breaking The "Ethereal Cord." In This Case, The Cord Is Then Expanded Like A Rubber Tube, Allowing The Spirit To Carry The Soul Through It As A Passageway Or Tunnel. When One Dies, The Cord Between The Spiritual Body And The Physical Body Is Cut, Like The Umbilical Cord Between Mother And Child At Childbirth, Consequently Introducing The Person To A New Independent Life.

When One Ascends, The Physical Body Appears To Be In Slumber, Or In A Trance. During The Hours Of Sleep, It Is Quite Easy To Ascend Accidentally. This Is The Time When The Spiritual Body Can Act Freely Upon The Physical Body, Drawing The Spirit And The Soul Upward. Sleep Is Also The Time When One Is Apt To Receive Spiritual Impressions. There Are Two Ways To Ascend From The Physical Plane:

1. With The Body Raising The Vibrations Of Your Physical Body Up To The Level Of Your Spirit And Soul. Then Continuing To Raise The Vibrations Until You Can Pass Through Your Ethereal Cord Freely Taking The Physical Body With You.
2. Leaving The Body And Only Allowing The Spirit And Soul To Ascend.

In The Ascension Of **Mustafa Muhammad Al Amin** He Took His Entire Body, Soul And Spirit From Makkah To Visit The Sacred Land Of Jerusalem And Passed Through A Time Tunnel To See The Sacred **Masjid Of Aqsaa** Before It Was Built. From There, He Was Lifted To The Seven Heavens Or Seven Planes. When Muhammad Reached The Spiritual Plane, He Was Given A White Animal The Size Of A Mule And An Ass, And It Was Stretched As Far As The Eye Should See. The Name Of It Was **Buraq** براق (A Spiritual Animal Which Was Really A Small Craft). Muhammad Not Only Took His Physical Body Through The Heavens, But He Also Transported It From Place To Place On The Material Plane.

The Science Of Creation

In Examining The Various Sub-Planes Of The Spiritual Plane I Will Use The Material Plane With Which You Are Most Familiar. For Example, When I Refer To The Dense Sub-Planes Of The Physical, I Am Referring To Worlds Of Solids, Liquids, And Gases. Just As You See Various Degrees Of These Forms Of Matter, So Are There Various Degrees Of Spiritual Matter.

THE MENTAL PLANE

Above The **Spiritual Plane** Is The **Mental Plane**. This Is Where All Individuality Is Given Up, Because The Spirit And The Soul Are Outgrown On The Spiritual Plane And Are Unable To Pass Into The Mental Plane. **Elevation Cannot Be Made To The Mental Plane Unless One Dies Or Has Given Up The Physical Life.** Only The Angelic Beings, Anunnaqi, Eloheem Also Call Maalaikat ملائكة, The Prophets, And Al Khidr الأخضر (The Green One), Are Able To Travel Back And Forth Freely Through This Plane. At The Point When One Loses The Spirit And Soul, He Is No Longer Able To Determine Or Complete Any Actions For Or Against Himself. This Is Because There Is **(No Self)** One Has Taken The Ultimate Step, And From This Point On He Has Burned Out All Desires. "The Only Thing That Holds Human Beings Back From Ascending To This Plane Is His "Ego." (Refer To The Mind Scroll #87)

The **Spiritual Plane** Is Where One Exhausts That Last And Most Supreme Stage Of Individuality; (Where One Is Judged) Where One Burns Out All Desire; And Where One Sheds All Those Things That Makes An "Individual." Therefore, When One Reaches The Mental Plane, There Is No Longer A Question About One's Destination. At This Point One Knows That One Is On The Right Path. From The Mental Plane On, One Is In Total State Of Mind, Which Is Shared Or United With Every Living Thing. All Forms Of Low Individuality Are Entirely Dissolved Non-Existent. You No Longer Suffer Petty Vices, For We Have (Burned Them Out On The Sub-Planes Of The Spiritual Plane) One Realizes That "Bliss," Or That "Ultimate," Love, Because There Are No Longer Separate Individual Ideas To Separate. Difference On This Plane No Longer Exists. You Can't Even Determine Same, Because Same Is What Makes A Difference. On This Plane One Will Be Guided And Prepared By The Angelic Beings, The Etheric Beings For The Final Stage Of The Journey: The Bosom Of Allah.

SO BELOW THE MATERIAL PLANE

To Overstand Even Further, You Can Analyze The Merging Of The Circle And Square From An Atomic Point Of View (Having To Do With The Science Of Submicroscopic Particles Called Atoms Down To The Particle's Quarks). The Energy, Upon Its Arrival On

The Science Of Creation

The Material Plane Was Manufactured By The Conversion Or Changing Of Certain Elements And Gases Known As Hydrogen H_1 And Helium He Or H_2 .

Ques: How Did H_1 Become H_2 ?

Ans: To Overstand How These Elements Came Together, It Is Necessary To Have A Basic Knowledge Of The Science Of Chemistry, Which Is The Science Of Blackness. The Word Chemistry Is **Chem** Or **Cham** ܩܡ , In Aramic Hebrew And **Ham/Hamite** ܚܡܝܬܐ Ashuric/Syriac Arabic. Look It Up You Will See Chem Is Ham, Chemistry Is A Kemet Or Egyptian, Mizraimite Science Called **Alchemy**. Alchemy Is An Ancient Pseudoscience Concerned With The **Transmutation** Of Base Metals, Lead, Copper, Etc. Into Gold. Alchemy Emerged As A Pseudoscience In Egypt And In China During The Early Centuries Of This Era. However This Science Was Known Before By The Anunnaqi. We Came To Mine Gold From The Planet Earth To Build A Gold Dome Around Our Planet (Rizq, The 8th Planet In The 19th Galaxy Illyuwn) As A Protective Shield From The Rays Of The Three Suns **Utu**, **Afsu**, And **Shamash**. (Refer To *Man From The Planet Rizq Scroll #80 Mission Earth Scroll #83 And Extraterrestrial And Creation Scroll #136*) Let Me Begin By Providing You With A Little Background Information Regarding The Nature Of The Atom Which Was Born By The Quark. The Atom Is The Smallest Part Of Any Substance And It Is Made Up Of Quarks. All Things Are Made Up Of Atoms, Which Are Themselves Made Up Of Smaller Particles, Such As Protons, Neutrons And Electrons (To Name A Few). Together, These Form A Specific Pattern. Atoms Are Therefore, Represented In A Circular Form And The Arrangement Of Its Electrons To Its Nucleus Is That Of The Planets Of The Solar System.

Its Center Contains The **Neutrons And Protons**, Protons Carry A **Positive Electrical Charge (+)**. Around The Nucleus Are **Smaller Bodies, Arranged In Rings**, These Are Constantly Orbiting The Nucleus And Are Called Electrons. The Path Of These Particles Which Carry A **Negative Charge (-)**, Are Called "Shells." Atoms Vary In The Amount Of Protons, Electrons And Neutrons According To The Element To Which They Belong. Two Or More Atoms May Combine Their Electrons And Form A Chemical Unit Called A "Molecule." Molecules Of Different Elements May Combine To Form New Compounds These Too Have Their Specific Patterns. Each Atom Has A **Specific Weight** Which Is The Sum Of The Neutrons And Protons, And A **Specific Number** Which Indicates Its Appearance On The Periodic Table Of Elements. In Addition, A Symbol, The Initial Of The Element To Which It Belongs, Is Also Used To Identify An Atom. For Example, The Beryllium Atom, Appearing Fourth On The Periodic Table, Has An Atomic Number Of Four (4). The Element Is Identified By The Initials "Be," And Has An Atomic Weight Of 9.012 (Or 9.0) The Atomic Number Is Also The Amount Of Protons.

Diagram 13
Beryllium Atom

On The First "Shell" Of The Atom There Are Usually Two Electrons. Other Shells May Have As Many As Eight. The Heaviest Atoms Are Those With The Most Electrons.

The Hydrogen Atom Has An Atomic Number Of 1 And An Atomic Weight Of The Same Number. It Does Not Fulfill The Requirements Of A Regular Atom, For One Thing, It Has Only One Electron On Its Outer Shell. It Is Therefore Considered "Incomplete." It Is The First On The Periodical Chart And Is The Lightest And Simplest Atom. It Was From A Single Hydrogen Atom That Helium Came About. In Order To Satisfy Its Need For Completion, It Fused In The Presence Of Three (3) Other Hydrogen Atoms So That The End Product Was The Helium Atom, Which Satisfied The Condition For Being Complete --- That Their First Shell Hold Two (2) And Only Two Electrons.

To Move On The Actual Process Of The Obtaining Of Helium

Therefore, The Electrons Still Equal The Number Of Protons. The Hydrogen Atom Now Has Two Fused Neutrons, One Proton And One Electron.

When Four Hydrogen Nuclei Fuse To Form One Helium Nucleus, Some Mass Disappears. Add The Four Hydrogen Weights And Compare With The Weights Of One Helium Atom.

A "Void" Area Occurred In The Atom, Between The Nucleus And Its Outer Shell. The Atom Today Has Many Sub-Shells. The Shell Nearest To The Nucleus Is The K Shell. There Are Other Shells Of Energy. This Energy Is What Gives The Atom Substance. In The Beginning, However, This Energy Did Not Exist. For The Area Which Fell Between The Nucleus And Electron Was Of Total Emptiness ----A Vacuum. Therefore, When Qi (The Earth) Broke Away From This Shamash (Sun), It Was Still "Desolate" Tohoo תוהו, Bohoo ברה Empty.'

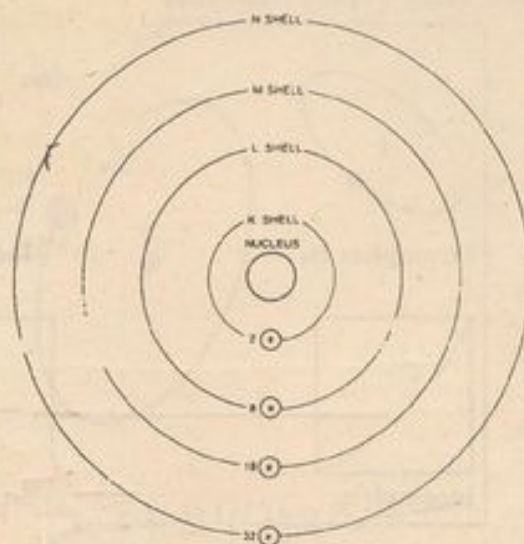

Diagram 20

This Turning Of Atoms Of Crystallization Still Continued. Every Element Originated From Hydrogen, Because In Order To Obtain "Something" (The Elements), You Have To Start With, Bohoo ברה "Emptiness", Tohoo תוהו, "Desolate", And Khoshek חשך "Darkness", Triple Darkness, And The Root Of Triple Darkness Is Three Degrees Of Darkness Called The Quarks.

The Most Abundant Element In The Universe Is Hydrogen. Although It Makes Up Less Than 1 Percent Of The Earth's Crust, By Weight, It Exists In Vast Quantities As A Part Of The Water In Oceans, Lakes, Rivers And Ice. It Is Also Found In A Free State In Gases From Volcanoes And Is Formed By Organic Decay And The Decomposition Of Water Vapor By Ultra Violet Radiation From The Sun. In Fact, Hydrogen Is Found In All Animal And Vegetable Tissue As Part Of Several [Carbon Compounds]. As Carbon Burns, It Turns Into A Black Substance, Which Is One Of The Definitions Of Melanin "A Dark Brown Or Black Animal Or Plant Pigment". The Most Primitive And Universal Pigment In All Living Things Is Melanin, Which Is Abundantly Found In Primitive Organisms Such As Fungi, As Well As [Advanced Primates]. Furthermore, Within Each Living Organism, Melanin Appears To Be Located In Major Functional Sites. For Example, In Vertebrates, Melanin Is Not Only Present In The Skin, Eyes, Ears, Central Nervous System, And The Diffuse Neuroendocrine Loci, Among Other Things. (Refer To Melanin-Its Children Scroll #133)

The Science Of Creation

There Are Several Different Theories About The Creation And Origin Of Life On The Planet Qi (Earth) Which Are: The Big Bang Theory, Or The Theory Of "A Supernatural Being Called "God" Created The Earth And Everything In It In 6 Days, And On The 7th Day He "Rested, Or The Other Theory Of Life Being Transplanted On Earth By Extra-Terrestrials.

Ques: What Is The Big Bang Theory?

Figure 8
The Big Bang

Ans: Your Question Should Be What Is "The Big Bang Theory", And According To Who's Definition? Scientists Say About 15 To 20 Billion Years Ago The Universe Started To Expand. However, When The Universe Was Contracting There Was A Big Bang. Thus, The Galaxies Were Closer Together And Because It Had A Higher Density, And The Universe Itself Was Compressed, And The Conditions Of The Universe At That Particular Time, That Existed Could Not Have Been Created

Nor Produced. And If So You Had To Have "Things" Any Kind Of "Things" Who Or What Created The Original Element Of Positive Or Negative Energies To Bang Into Each Other.

Ques: Is This Scientific Interpretation True?

Ans: Yes, To Some Degree.

Ques: What Do You Mean To Some Degree?

Ans: I Say To Some Degree Because When Defining Things, Scientist Leave Out A Great Deal Of Necessary Information, That They Either Choose Not To Tell You, Or Either They Don't Know It To Tell You!

Ques: Can You Please Give Us The Facts On How Our Solar System Was Created?

Ans: Yes! Your Solar System Was Formed From A Gigantic Dust Cloud And Gas '93 Billion Years Ago. That Cloud Of Dust And Gas Existed Unformed In The Universe, Then It Began To Collapse. It Was Debris From An Older System That Burnt Out Billions Of

The Science Of Creation

Earth Years Ago. Just As Your Shamash (Sun) Is Burning Out Right Now. This Brought 2 Hydrogen Atoms Together To Form He, Which Is Helium.

Diagram 24
Hydrogen

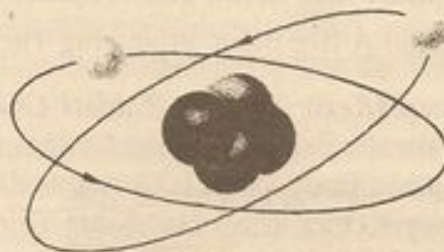

Diagram 25
Helium

ABOUT THE SUN

93 Billion Years Ago Was The Creation Of Your Sun Originally Called Afsu, Known Today As Shamash Or Shamsun, And Was The Result Of 554 Million Tons Of Hydrogen (H_1) Changing Into 550 Million Tons Of Helium (H_2) Every Second. The Remaining 4 Million Exploded From The Center Giving Birth To Sun Spots Or Electrical Storms On The Sun. This Was The Birth Of Your Sun, Then Called Shamash, And From Your Sun's Electrical Storms Came The Birth Of Your Solar System; A Large Universe. A Super Nova, Which Exploded. This Explosion Caused The Reverse Action From Expansion To Retraction That Lead To The Collapse. This Super Nova Was 1,000,000,000 000 (One Billion) Light Years Away At That Time.

Ques: What Is A Light Year?

Ans: A Light Year Is The Distance Light Can Travel In One Year. A Supernova Is A Cluster Of Stars That Makes A Sudden Appearance In The Sky, Generally Decreasing Rapidly In Brightness. Light Travels At 186,272 Feet Per Seconds Over A Period Of 365 Days, That Means Light Travels 5,874,273,792,000 (Five Trillion, Eight Hundred And Seventy Four Billion, Two Hundred And Seventy Three Million, Seven Hundred And Ninety Two Thousand) Feet Per (Each) Five Hundred And Thirty Six Thousand Years.

Figure 9
A Super Nova

This Super Nova Was A Part Of A Cluster. All Clusters Move Away From Each Other. A Cluster Is One Of Many Groups Of Which Galaxies Exist, Nineteen To Be Exact On This Side Of The Massive Black Hole; Whose Vortex Opens Every Ten Earth Years. (Refer To *Man From Planet Rizq Scroll #80*). After A Universe Collapses In Its Center, Which Is An Explosion Called A Big Bang, Producing The Sound Kha, خ, ط, Δ From Which The Word

Khalaq Comes. (Refer To *Holy Tablets Chapter One, El Khalqu, The Creation*) So, The Universe Is Always Expanding And Collapsing. Atoms And Cells All Do The Exact Same Thing The Human Body Does; It Grows And Expands Until It Collapses; You Call It Death. So, The Universe Does The Exact Same Thing, And, So Does The Human Body. When A Universe Dies, It Explodes And Causes The Reverse Of Your Universe In Your Galaxies. The Space Between Galaxies Is Always Getting Bigger. So Billions Of Years Ago, Galaxies Were Closer And Closer, Before Expanding.

Now, There Had To Be A **Point Of Starting**. This Would Have All The **Galaxies Crunched Together Into A Small Space. 76 Trillion Years Ago**, Which Is The Creation Of The **Anunnaqi, Eloheem** In This Form, And The Small Dot Or **Nuqta** Exploded And This Is Called **The Big Bang**, Which Caused **The Explosion Of Positive And Negative Forces** Causing The **Negative And Positive Forces To Clash Into Each Other By The Will Of Elyown Elyown El** (אל אלוין אלוין) In Aramc (Hebrew), Who Is **Outside Of Your Time Zone** Making It Hard For You To Overstand Just How **Elyown Elyown El** Exists; **That Was The Very Beginning, The Creation As You Know It.**

The Exploding Of Positive And Negative Forces Is Still Taking Place By The Expansion Of Your Universe. If You Measure How Fast The Universe Is Expanding And How Long It Must Have Taken At Different Speeds To Reach Its Present Size, **We Know That The Big Bang Happened 76 Trillion Years Ago**, Not 15 To 20 Billion Like Scientist Claim. **At That Time All The Matter And Energy Of The Universe Was Squeezed Into One Tiny Spot Called A (نقطة) Nuqta Or Dot.** It Was Very Hot, Trillions Of Degrees. Then As The **Universe Started To Expand, It Cooled Off And Formed A Straight Line Of Light That Formed Forms. There Are Still Very Hot Spots. They Are Stars.** The Straight Line Is Called **Light Waves Of The Vast Flash Of The Big Bang The Line Stretched And Grew Longer As The Universe Cooled. Today, They Are Very Long Radio Waves.** And You Also Have **Subatomic Particles Form Galaxies. Gas Further Clumps To Make Stars** As Your Sun Is A Star Born **93 Billion Years Ago And From It Planets, Such As Earth Were Formed.**

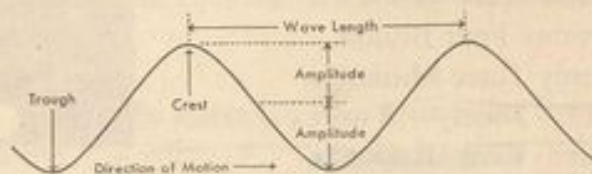

Diagram 26

Ques: How Does Our Sun Regenerate Heat?

Ans: The Sun Is Another Star Of Medium Brightness And Size And Is The Closest Star To The Earth -- 8 Light Minutes Or Approximately 93 Million Miles Or 150 Million Kilometers Away. It Is A Huge Ball Of Burning Gases Which Is 333 Times Bigger Than The Earth. The Fact That It Makes Up An Estimated 99 Percent Of The Total Mass Of The Solar System, Should Give An Idea Of How Small The Planets Are In Comparison To The Sun. Stars Such As Your Sun, Stay Hot Because Of Nuclear Changes In Their Centers. The Intense Heat Of The Sun Is Produced By Constant Transformation Of Hydrogen Into Helium Per Each Second, As 554 Million Tons Of (H) Hydrogen Is Changed Into 550 Million Tons Of (He) Helium Each Second, On Your Sun, As Mentioned Earlier. The Remaining 4 Million Tons Of Hydrogen Is Radiated Outwards In The Form Of Electrical Storms, Solar Wind Is Also Produced Out Of This Activity And At A Speed Of Up To 1000 Miles (2000 Km) Per Second. It Streams Outward Into Space And May Enter The Earth's Atmosphere A Day Or So Later. Ionized Particles Contained In Solar Winds Interact With The Upper Atmosphere And Produces Aurora And Geomagnetic Storms. The Word Solar Comes From The Spanish Word Sol Meaning "Sun", And Ar Meaning "Pertaining To", Thus The Word Solar Means "Pertaining To The Sun". Ar Is Also Another Name For Anu. The Meaning Of Aurora Is "Dawn" From The Latin Word Ausosa. The Aurora Borealis (Northern Lights) And Aurora Australis (Southern Lights) Are Beautiful, Dynamic Luminous Displays Seen In The Nighttime Sky. The Most Common Form Of An Aurora Is A Curtainlike Display Of Colors Extending East To West. Now, As A Star's Center Grows Hotter, The Star Expands. Eventually, That Star Explodes And Collapses. This Will Also Happen To Your Sun, In Time. When A Very Large Star Explodes It Becomes A Super Nova. They Spread Their Material Throughout Space In The Form Of Planets And Stars Asteroids (Star-Like) Bodies Of Matter.

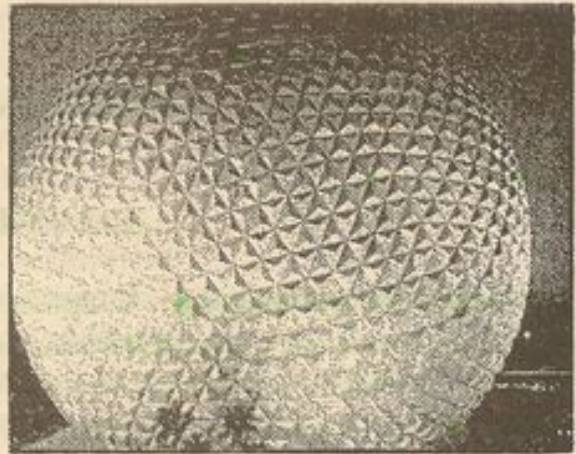

Figure 10
A Black Hole

Ques: What Is A Black Hole?

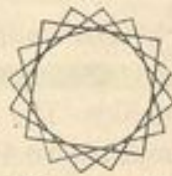

Ans: When A Super Nova Explodes, What Is Left Of It Can Collapse Into A Tiny Object With Gravity So Strong That Everything Falls In, But Nothing Comes Out. What Is Formed Is Called A Black Hole. (There Is A Black Hole In The Center Of Every Galaxy) What You Call "The End" Or "The Final Day" Or "Final Sun" Is When ELYOWN ELYOWN EL Causes Your Kosmos, Kūwn (كون) To Stop Expanding Forever. Your Kosmos Will Then Fall Back At High Speed Into Its Black Hole Falling Into Another Big Bang, Into Its Own Black Hole, Only This Time This Will Be Your (Hell's Fire) It's All Recreation. Or Wreck-Creation To The Anunnaqi.

The Science Of Creation

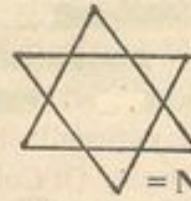

See, When Stars Explode And Collapse, They Become Incredibly Small; About The Size Of A Golf Ball. That's Why The Epcot Center At Disney World In Florida Is Shaped Like A Large Golf Ball, And They Teach You About The Universe. It Is Set Up Like A Wreck-Creation Park. (Read The Mystery Clouds Scroll #91 For More Information) Some Stars That Explode And Collapse Become White Dwarf Stars. White Dwarfs Can Be Smaller Than Your Planet Earth, But They Can Hold The Same Amount Of Matter As Your Sun! Even Smaller Stars, Called Neutron Stars, Are Formed When Very Large Stars Collapse. Neutron Stars Can Be As Massive As Your Sun, But They Are Only A Few Miles In Diameter.

= White Dwarf

= Sun

= Neutron Star

Diagram 27

The Sun, Like Other Stars To A Lesser Degree, Continues To Function With The Same Activity That Brought Forth The Physical Existence Of The Universe: The Turning Of Hydrogen Into Helium. The Original Sun Utu, Produced By An Explosion Of Enormous Magnitude, Hurling Great Masses Of Burning Gases Into Space. These Whirled At Great Speeds For Some Time, Then They Began To Cool And Expand. Within These Great Clusters Of Gas, However, Condensation Began To Take Place And The "Seeds" Of Galaxies Began To Take Form.

In The Succeeding Stages Of Their Development, Contraction And An Increase In The Temperatures Occurred. This Eventually Led To The Production Of Intense Heat And Brightness. Such Was The Birth Of The Stars. Further Explosions And Fragmentation Produces Smaller Bodies. These, Like The Others Whirled At Great Speeds And Eventually Began To Settle In Various Places According To The Force That Was Behind Their Outward Thrust. This Is Very Similar To Spontaneous Combustion. Spontaneous Combustion, Is The Self-Ignition Of Certain Substances Initiated By Slow Oxidation. If The Heat Of The Oxidation Reaction Cannot Be Dissipated, The Temperature Of The Substance Rises Until It Reaches Its Kindling Point And Bursts Into Flame. The Chemical Element Phosphorus, For Example, Ignites In Air So Readily That It Must Be Stored Under Water. Coal Is Also Subject To Spontaneous Combustion And Is Generally Stored In Shallow Piles To Dissipate The Heat.

The Science Of Creation

These Heavenly Bodies Did Not Settle In A Rigid Manner, Rather, They Continued To Revolve At A Slower Rate And Maintained Certain Positions In Relation To Each Other. These Positions Were Based On The Forces Of Gravity And Attraction.

In Your Study Of The Science Of Creation, You Will Examine The Outcome Of One Of The Sparks That Was Hurlled From An Already Burning Mass; It Has Been Called "Earth". The Original Name For Earth Was **Tiamat** Meaning "**Maiden Of Life.**" Earth Also Had Many Other Names Such As **Terra, Arduwt, Orb, Gaia, Qi,** And **Eridu.** This Small Planet, With Nine Others, Established A System In Which This Star Of Medium Magnitude Became The Center Of It; Like Electrons Rotating Around A Nucleus. These Planets Revolve Around The Sun In Their Own Orbits And At Varying Speeds By The Express Command Of El Eloh Who Is Anu Also Called Allah And Yahweh.

As The Spark (Earth) Began To Cool, Steam Or Vapor Began To Rise And Surround The Planet. Early Earth Was Composed Of The Gases, Ammonia (Nitrogen And Hydrogen), Methane (Carbon And Hydrogen), And Water (Hydrogen And Oxygen); It Had The (Necessary Ingredients) For The Beginning Of Life. (Refer To The Holy Tablets, Chapter One, El Khalqu, The Creation).

But Let Us Look Closer At This Burning Hot Mass. What Part Of It Was Burning?

Experiment: Take Four Substances And Burn Them Separately.

(1) Wood (2) Meat (3) Bread (4) Sugar

After Burning For A While, We Have A Black Substance As Residue. This Is Called Carbon, Black Substance. These Four Substances All Returned To Their Original Chemical Form. Chem-ical (כֶּמֶס) Chem = Which Is Black In Aramic (Hebrew) **Kham** Or **Ham**.

What Was Burning Of The Earth Was Hydrogen And Dust Which Produced Carbon, Hydrogen And Oxygen. High Temperatures Cause Carbon To React With Other Gases. Carbon's Atomic Number Is 6, Which Relates To The Sixth Day Of Re-Creation On This 6th Day Is When Zakar (Adam, Kadmon) Was Fashioned From Mud. *Genesis 1:26 -30* The Combination Of Carbon And Oxygen Produced Carbon Dioxide. Carbon And Hydrogen Produced Methane. Other Compounds Of Carbon And Hydrogen Produced Ammonia.

These Gases Formed Rings Around The Planet That Were Very Distinct. Some Of Them Contained Heavy Carbon And Yet Others Were Lighter Rings Of Hydrocarbons. The Lighter Rings Were Further Away From The Earth And The Outermost Ring Was Water

Diagram 28

The Lighter And Denser Rings Around The Earth

THE BEGINNING OF LIFE FORMS ON TIAMAT

Early Earth Was Composed Of The Gases, Ammonia And Methane, In Addition To Water (H_2O). The Cooling Of The Earth And The Subsequent Falling Of The Vapor Rings Allowed These Gases To Reach The Waters Upon The Earth. The Exposure Of Ultraviolet Rays From The Sun Caused These Gases To Form Simple, Organic Molecules. These Began To Form Larger Molecules, Until Protein Was Formed. It Was This Formation Which Ultimately Resulted In The Prototype Of The Living Cell, Which Occurred Forty And Six Billion Years Ago. The First Kinds Of Life Forms On This Planet Were The Evolution Of The Amoeba, Fungi And Algae That Lived Under Water And Evolved Onto Land. Bear In Mind, That These Chain Reactions Did Not Occur By Blind Chance But Only By The Will Of The Most High, Anu.

This Cell Or Cells Were Placed Inside The Vulcan Deity, The Dolphin. It Was These Cells That Were Transplanted And Transported Into The Seas Of This Planet. This Transportation Involved The Development Of The First Animals Twenty And Four Billion Years Ago. These Were The Single Celled Organisms Called Protozoa.

Figure 12
The Vulcan Deity, A Dolphin

The Simplest Of This Group Is The Amoeba, A Small Mass Of Transparent Protoplasm Which Does Not Even Have A Definite Shape, Nor A Cell Wall. The First Single-Celled Animal To Originate Was The Amoebae, Which Are Found In Water Or Moist Soil And Reproduce Asexually. This Means They Reproduce Alone, They Don't Need A Partner. Fungus Arose From This Single Cell Organism And Played An Important Role In Nature. They Break Down The Bodies Of Dead Organisms Into Chemical Substances That Can Be Used By Other Organisms. Fungi Live As Parasites And Reproduce Either Sexually Or Asexually. The Simplest Particle Of Life Is A Quark Of Which Atoms Are Composed. The Atom Is The Smallest Unit Of An Element That Retains All Of The Element's Properties. All Things Are Made Of Atoms Which Are Composed Of Quarks. It Is The Smallest Part

Of Any Substance. It Is Too Small To Be Seen Even With The Most Powerful Electron Microscope, Yet All That Is, Is In Parts, And Is Part Of The Existence.

Ques: How Do You Know Quarks Exist?

Ans: Because Of What Quarks Become, And That Is Atoms. The Average Diameter Of An Atom Is Approximately One Hundred Millionth Of An Inch. At The Center Of An Atom Is A Smaller Particle Called A **Quark, The Father Of Energy**. There Is The Nucleus, A **Dense Cluster Of Protons And Neutrons On The Outside Of A Quark**. Together The Protons (P) Which Have A Positive (+) Charge And Neutrons (N), Which Have No Charge Are Called Nucleons. Outside Spinning Around The Nucleus In Orbitals, Are **Electrons** Which Have A Negative (-) Charge That Makes Up What Is Called **The Shell Of The Atom**.

All Atoms Vary In The Amount Of Protons, And Electrons And Neutrons According To The Elements To Which They Belong. In Reality, No Atom Has A Definite Size In Space And Time. However, It Gets Its Form From Its Surrounding Electrons. **Atoms Are Building Blocks From Which Molecules Are Made; And A Molecule Is The Smallest Unit Of A Pure Substance That Can Exist Independently And Exhibit All Of The Properties Of The Substances: Carbon, Hydrogen, Nitrogen And Sulfur**. These Gases Formed Into **Simple, Organic Molecules** At Which Time These Organic Molecules Began To Form Larger And Larger Molecules Until Protein Was Formed.

It Was This Formation Which **Ultimately Resulted In The Prototype Of The Living Organism**. The Stage After The Creation Of The First Cell Involved The Development Of The **First Animals**, Which Is Called A **Protozoa** Which Comes From The Greek "**Proto**," Meaning "**First In Time**" And "**Zoa**" From "**Zoia**", Meaning "**Animals**". When **Reproducing, The Protozoa Splits Into Two Separate Animals Or Cells**. Over A Period Of Nineteen Million Earth Years Of Time, These Animals Multiplied And Diversified And Evolved Into Many Types Of Creatures And Animal Life Forms. The Protozoa Were Originally Transported And Planted Here On This Planet Earth By **Rizqiyians** From The **Planet Rizq**, The **Anunnaqi** Called The **Eloheem**. And Do Not Forget My Child, The Conditions Of Your Planet Had To Be Right! These First Atoms Were Made Up Of Very Simple Combinations With Each Other, But Sunlight Contains Energy, And This Energy **Forced The Atoms Into More Complicated Combinations Until Small Cells Formed**. This Also Happened On Many Other Planets With The Same Chemicals And Temperatures. So, There Is Life On Many Other Planets; (**Refer To Are There U.F.O.'S In Our Midst 84, Mission Earth Scroll #82, And Extraterrestrial And Creation Scroll #136**) The Key Is Bacteria. There Are Intelligent Bacteria That Help Earthlings Digest Their Food, And Many Other Positive Things. There Are Also Intelligent Bacteria That Hurt Earthlings. Intelligent Bacteria Do Things Such As Make You Sick And Cause Diseases In Humans, Animals And Plants. In Humans, They Cause Diseases Such As: Syphilis, Leprosy And Pneumonia To Name A Few. Most Of These Came To This Planet From Other Planets. Some Of Which Are In Your Solar System And Others That Are Far Beyond Your Knowledge.

Like Many Other Simple Organisms, Bacteria Can Multiply By Asexual Reproduction Or By Binary Fission. This Occurs When The Nucleus Of One Cell Divides Forming Two New Cells, Daughter Cells. The Exact Same Way A Hologram Can Be Broken Into Millions

Of Parts And Each One Is The Same, So It Is With Cells. And Then My Child, There Are Others That Just Live With You, Never Bothering You At All. The First Plant Life Were Simple Plants That Began As One Celled Organisms Of The Classes Known Today As Bacteria and Algae. These Originated In The Water. Yet Their Structure And Composition Enabled Them To Exist In All Types Of Environments And Conditions. Algae Has Bodies Composed Of A Single Cell. Algae Accounts For Ninety Percent Of The World's Photosynthesis. Bacteria Are Found Everywhere: In Water, Air, Soil, Your Bodies And Food. Many Of Them Are Helpful And Necessary For Your Physical Existence. They Are Also Useful In The Decomposition And Dissolving Of Solid Waste. Then You Have The Virus. A Virus Is A Microscopic Organism That Has An Exceedingly Simple Structure Composed Of Nucleic Acid And Protein. In The Case Of Some Of The Viruses That Live In Bacteria And Animal Cells, This Nucleic Acid Is Generally **DNA, Deoxyribonucleic Acid**. In The Viruses That Cause Diseases Of Plants, The Nucleic Acid Is Usually **RNA, Ribonucleic Acid**. A Virus Lives In A Cell Of Another Living Thing. Although Viruses Are Small And Simple, They Are A Major Cause Of Disease. Some Viruses Infect Humans Beings With Diseases Such As **Ebola, A.I.D.S., Tuberculosis**, Etc. (*Refer To The Spell Of King/Leviathan - 666 Scroll #15*). Others Infect Animals Or Plants And Still Others Attack Bacteria. Viruses Produce Diseases In An Organism By Damaging Some Of Its Cells. However, Viruses Sometimes Live In Cells Without Harming Them. Most Viruses Reproduce In Specific Cells Of Certain Organisms. Viruses Are Gaia's, Earth's Means Of Defense When Attacked.

The Structure And Composition Of The First Forms Of Life Enabled Them To Exist In All Types Of Environments And Conditions. The First Plants Did Not Contain Chlorophyll, Because At That Time, The Sun Did Not Thoroughly Shine Upon The Earth. Although Some Of The Heavy Carbon Vapors Had Descended And Some Were Still Disintegrating From The Heat, There Still Remained Enough To Prevent The Direct Sunlight From Reaching The Earth. Thus, The First Plants, Unlike The Larger Ones Which Came Later, Could Not Depend On Sunlight To Produce Their Energy. Bacteria And Algae Were (And Still Are) Able To Obtain Their Energy By Other Means. How Was This Possible? This Was Possible Because El Eloh Is Aware Of The Needs And Conditions Of All His Creatures, Great And Small. So, Being **El Khabir** الخبير (The Aware) And **El Razzaaq** الرزاق (The Provider). He Placed The Things In The Environment That Were Definitely Essential And Then Gave Them The Means To Utilize Those Things. Thus, Some Bacteria Produce Their Energy By The Chemical Changes They Cause In The Elements Of Their Environment. Some Types Oxidize In Organic Compounds Such As Ammonia, Sulfur, Hydrogen, Gas And Ferrous Iron, Thereby Releasing Energy. On The Same Level, Some Types Of Algae Can Grow In Hot Springs With Temperatures Over 80° Degrees Celcius. Here They Survive By The Conversion Of Calcium Salts And Magnesium Into A Chalky Material Of Brilliant Colors. Yet Others Which Contain A Chlorophyll-Like Substance Are Able To Perform A Limited Form Of Photosynthesis By Absorption Of Light From The Red Spectrum And By The Use Of Hydrogen Instead Of Water. Yet This Is Not Real Photosynthesis As Performed By Green Plants.

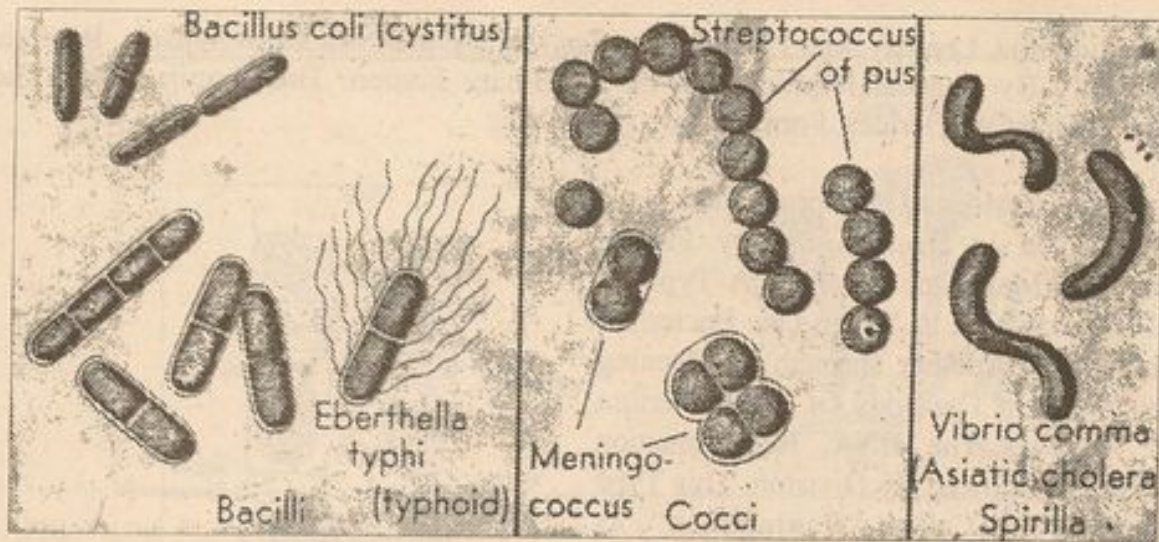

Diagram 29
Types Of Bacteria

Bacteria And Algae Contain Various Proteins, Fats And Enzymes, Their Ability To Survive In Extreme Environments, Those That Would Kill The Average Plant, Partly Explains How And Why They Were The First Forms Of Life On Earth. If You Recall, The Earth, In Its Early Stages Of Development, Was Still A Very Hot Place.

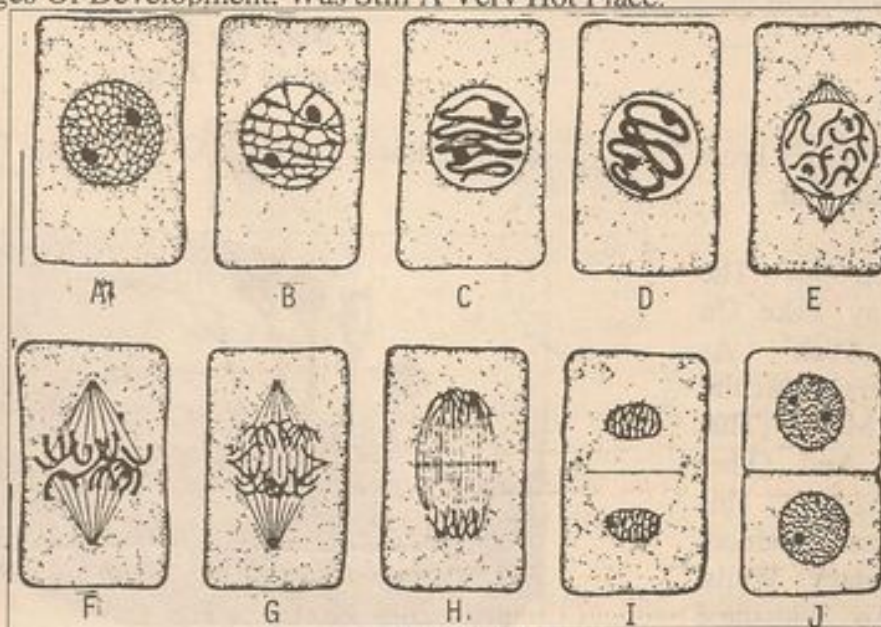

Diagram 30
Cell Division In Plants

Bacteria Are Found Everywhere; In Water, Air, Soil, Our Bodies And Our Food. Many Of Them Are Helpful And Necessary For Our Physical Existence. They Are Used In The Manufacture Of Foods, In Agriculture And In Medicines. They Are Also Useful In The Decomposition And Dissolving Of Solid Wastes. Some Bacteria Are Harmful And Cause Diseases In Human Beings, Animals And Plants. In Human Beings, They Cause Diseases

Such As Syphilis, Leprosy And Pneumonia. Like Many Other Simple Organisms, Bacteria Can Multiply By Asexual Reproduction Or By Binary Fission. This Occurs When The Nucleus Of One Cell Divides, Forming Two New Cells.

Although Other Modes Of Reproduction Have Been Observed In Bacteria, Binary Fission Remains The Main One. There Is A Type Of Sexual Reproduction In Which One Bacterium Passes **DNA** To Another Through An Opening In Their Sides. In The Body Of The Bacterium Which Receives The **DNA**, Recombination Takes Place, Followed By Division. This Type Or Reproduction Called "**Conjugation**", Is Also Observed In Other Simple Plants Such As Spirogyra Which Is A Kind Of Green Algae. Conjugation In Spirogyra Occurs When Two Filaments Of The Plant Form A Type Of Tube Between Themselves. When This Is Complete, The Contents Of One Cell Passes Into The Other And Forms A Zygote.

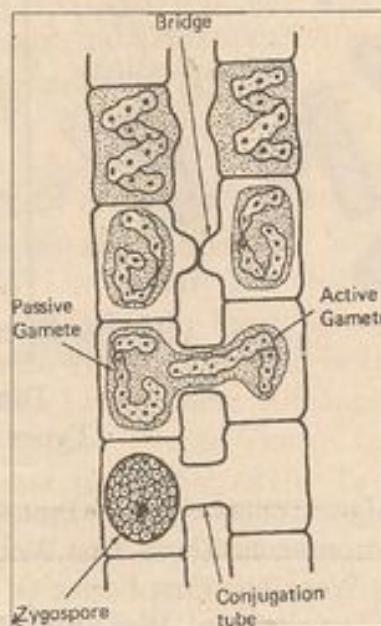

Diagram 31
Formation Of Zygote

A New Filament Develops From The Zygote. Sometimes, The Cells Of The Same Filament May Unite In This Manner.

Reproduction Of The Asexual Mode May Take On Other Forms Such As "**Sporulation**." This Particular Type Is Seen In Molds (That Form On Bread And Other Organic Substances). In This Case, The Organism Produces Cells With Resistant Walls, Enabling Them To Withstand Any Type Of Unfavorable Condition. When The Required Conditions Return, Each Spore Gives Rise To A New Organism.

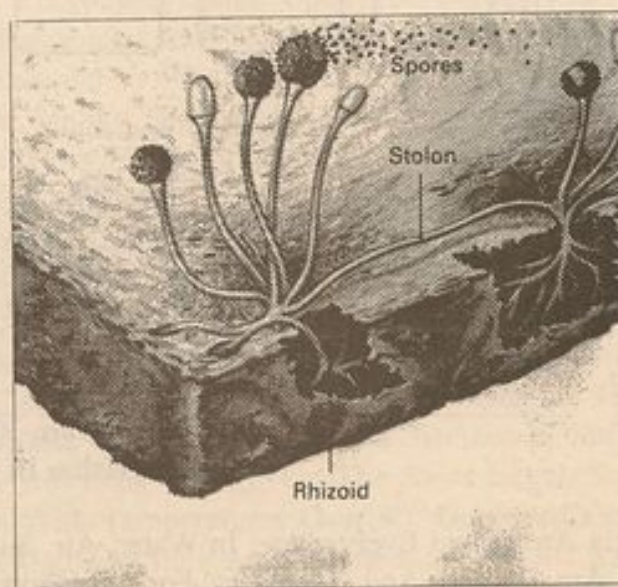

Diagram 32
Mold Formed On Bread And Other Organic Substances

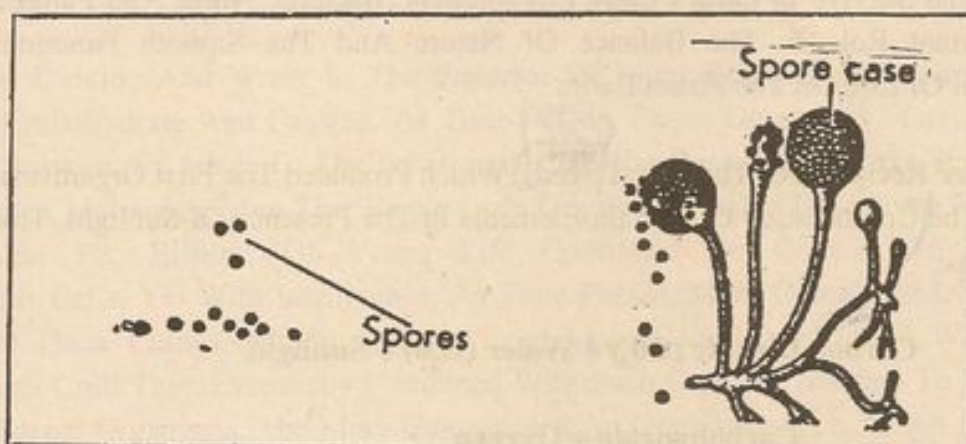

Diagram 33
Sporulation

A Third Type Of Asexual Reproduction Is Called "**Budding**" And It Is Seen In Plants Of The Fungus Variety; Yeasts For Example, Reproduce In This Manner. It Is Simply The Growing Of A New Bud Which Develops Into A Mature Organism.

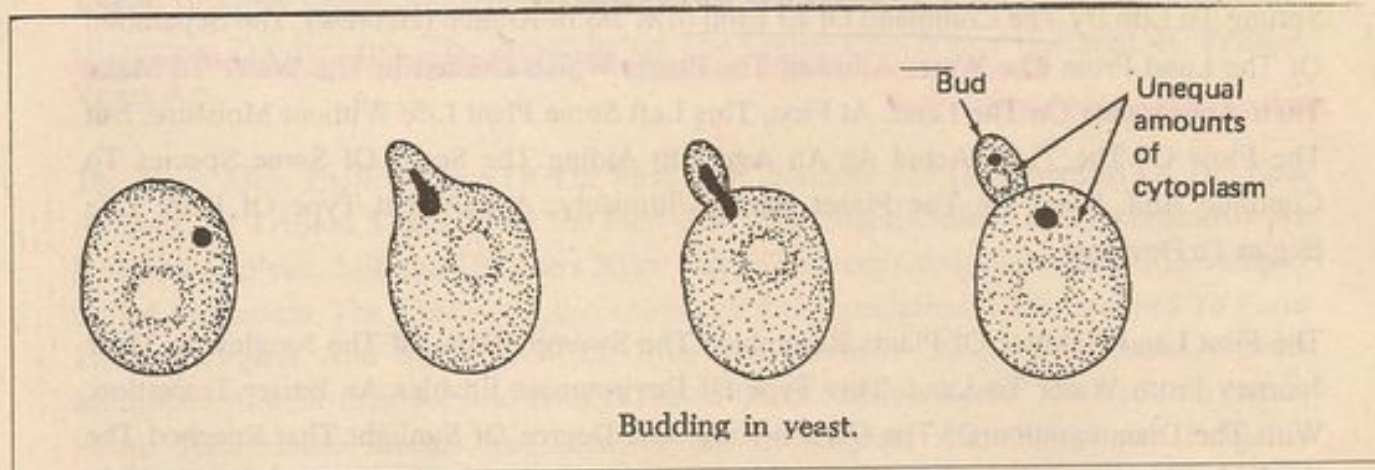

Diagram 34
Budding In Yeast

Thus, We See That The First Forms Of Life Were The Simple, Microscopic Organisms, Mostly Single Celled. These Later Advanced To Organisms Of Multiple Cells Or Cell Colonies. Then Came The Algae And The Fungi. When These Plants Are Examined Today, We Can Overstand Why They Appeared At The Time They Did. They Played A Great Role In The Preparation Of The Planet For Other And Much More Complex Forms Of Life. It Was By The Design Of The All Wise Creator That These Creatures Came About. It Was He Who Gave Them Their Specific Qualities That Enabled Them To Interact With The Conditions Of Earth At That Time. Larger And More Complex Structures Would Not Have

Been Able To Survive In Earth's Early Environment. Bacteria, Algae And Fungi Still Play An Important Role In The Balance Of Nature And The Smooth Functioning And Preservation Of Life On The Planet Earth.

The ("Master Recipe") For The ("First Seed") Which Produced The First Organisms Was The Result Of The Combination Of Certain Elements In The Presence Of Sunlight. This Was El Eloh's Recipe.

Carbon Dioxide (CO₂) + Water (H₂O) + Sunlight

= Carbohydrate + Oxygen

Simple Sugars & Starch + Oxygen

The Effect Of The Sunlight Upon The (Carbon) Ring That Enveloped The Earth, Started A Chain Of Reactions In Which [Atoms Of Carbon, Hydrogen And Oxygen] Combined To Form Molecules Of Simple Sugar. (The Original Seed) Was Brought To Earth When The (Vapor/Carbon Ring Descended) Thus, It Was In A Watery Environment That These Seeds Sprung To Life By The Command Of El Eloh (אל אלה) In Aramic (Hebrew). The Separation Of The Land From The Water Allowed The Plants Which Existed In The Water To Make Their Appearance On The Land. At First, This Left Some Plant Life Without Moisture, But The Flow Of The Tides Acted As An Agent In Aiding The Seeds Of Some Species To Continue And Adapt On The Planet Earth. Ultimately, A Different Type Of Plant Life Began To Develop.

The First Land Habitats Of Plants Resembled The Swampy Parts Of The Jungles. In Their Journey From Water To Land, This Type Of Environment Enables An Easier Transition. With The Disintegration Of The Carbon Ring, The Degree Of Sunlight That Reached The Earth Had Increased. The Plants Were Therefore Able To Utilize The Limited Sun Light In The Performing Of Photosynthesis.

Ques: What Is Photosynthesis?

Ans: (Photosynthesis) Is The Process By Which Green Plants Obtain Their Energy From The Sun, And Therefore, Maintain Their Survival. Carbon Dioxide (Present In The Air) And Water Are Also Necessary To Complete The Process. The Exposure Of Plants To Sunlight, Causes Certain Reactions To Occur In Which Sugar Is Produced. Thus, The Equation For Photosynthesis Is Stated Thus:

Or Carbon Dioxide And Water In The Presence Of Light Reacting With Green Plants, Produces Carbohydrate And Oxygen. As Time Passes, Plants Developed More And More Complex Systems To Adapt To The Environment. It Was Gases And Sparks That Formed The Complex Molecules From The Simple Ones Originally Planted Here Some **76 Trillion Years Ago**. For Billions Of Years, Life Continued To Consist Of No More Than Simple Cells, Yet With Intelligence. As Time Passed, More Complicated Cells Were Born, And These Cells Gradually Became Even More Complicated Cells, Which Were Giving Birth Until They Eventually Combined With Each Other Or Married To Give Birth To Even Larger Organisms. The More Complicated An Organism, Such As An Algae, The Larger Its Brain Is, Thus, The More Intelligent It Became. These Living Organisms Evolved Out Of The Water Through The Ammonia And On To The Soil. As Stated Earlier The Early Earth Was Composed Of Gases, Ammonia, Methane, And Water.

While These Gases Were In The Water Upon The Earth, The Exposure Of Ultra-Violet Rays From The Sun Caused These Gases To Form Simple, Organic Molecules Which Began To Form Larger Molecules, Until Protein Was Formed. Eventually This Formation Ultimately Resulted Into The Prototype Of The Living Cell Which Occurred **46 Trillion Years Ago**.

The Stage After The Evolution Of The First Cell, Involved The Development Of The First Animals. **24 Trillion Years After** The First Cell, The Single-Celled Organisms Known As Protozoa Evolved. Millions Of Years After That, The Next Group Of Animals Developed Called Metazoans. The Metazoans, Were Composed Of Specialized Cells Grouped To Form Tissues, Organs And Systems, Much Like The Animals Of Today. These Animals Multiplied And Diversified, And Over A Period Of **19 Million Years**, Evolved Into Genus Homo Then Homo Erectus And Many Types Of Animals And **Tanin תנין** (Dragons) **Genesis 1:27** Called "**Terrible Lizards**" Or Simply "**Dinosaurs**". This Was The First Evolution Of Life On The Planet Earth Of Cold And Warm Blooded Creatures - And Creepers.

These Inhabitants Went Through Many Changes Such As The Ice Age, Glaciers, Volcanoes, And Earthquakes. During This Time There Was Also The Problem Of The Dinosaurs. Evolution Of The Dinosaurs Which Means "**Great Lizards**", And Human Beings Were Imbalanced To The Point That The Dinosaurs Were Much Bigger Than Human Beings, And Were Killing Them Off. Dinosaurs Were Of Two Kinds. (*Refer To The Garden Of Eden, Page 41, Scroll #35*).

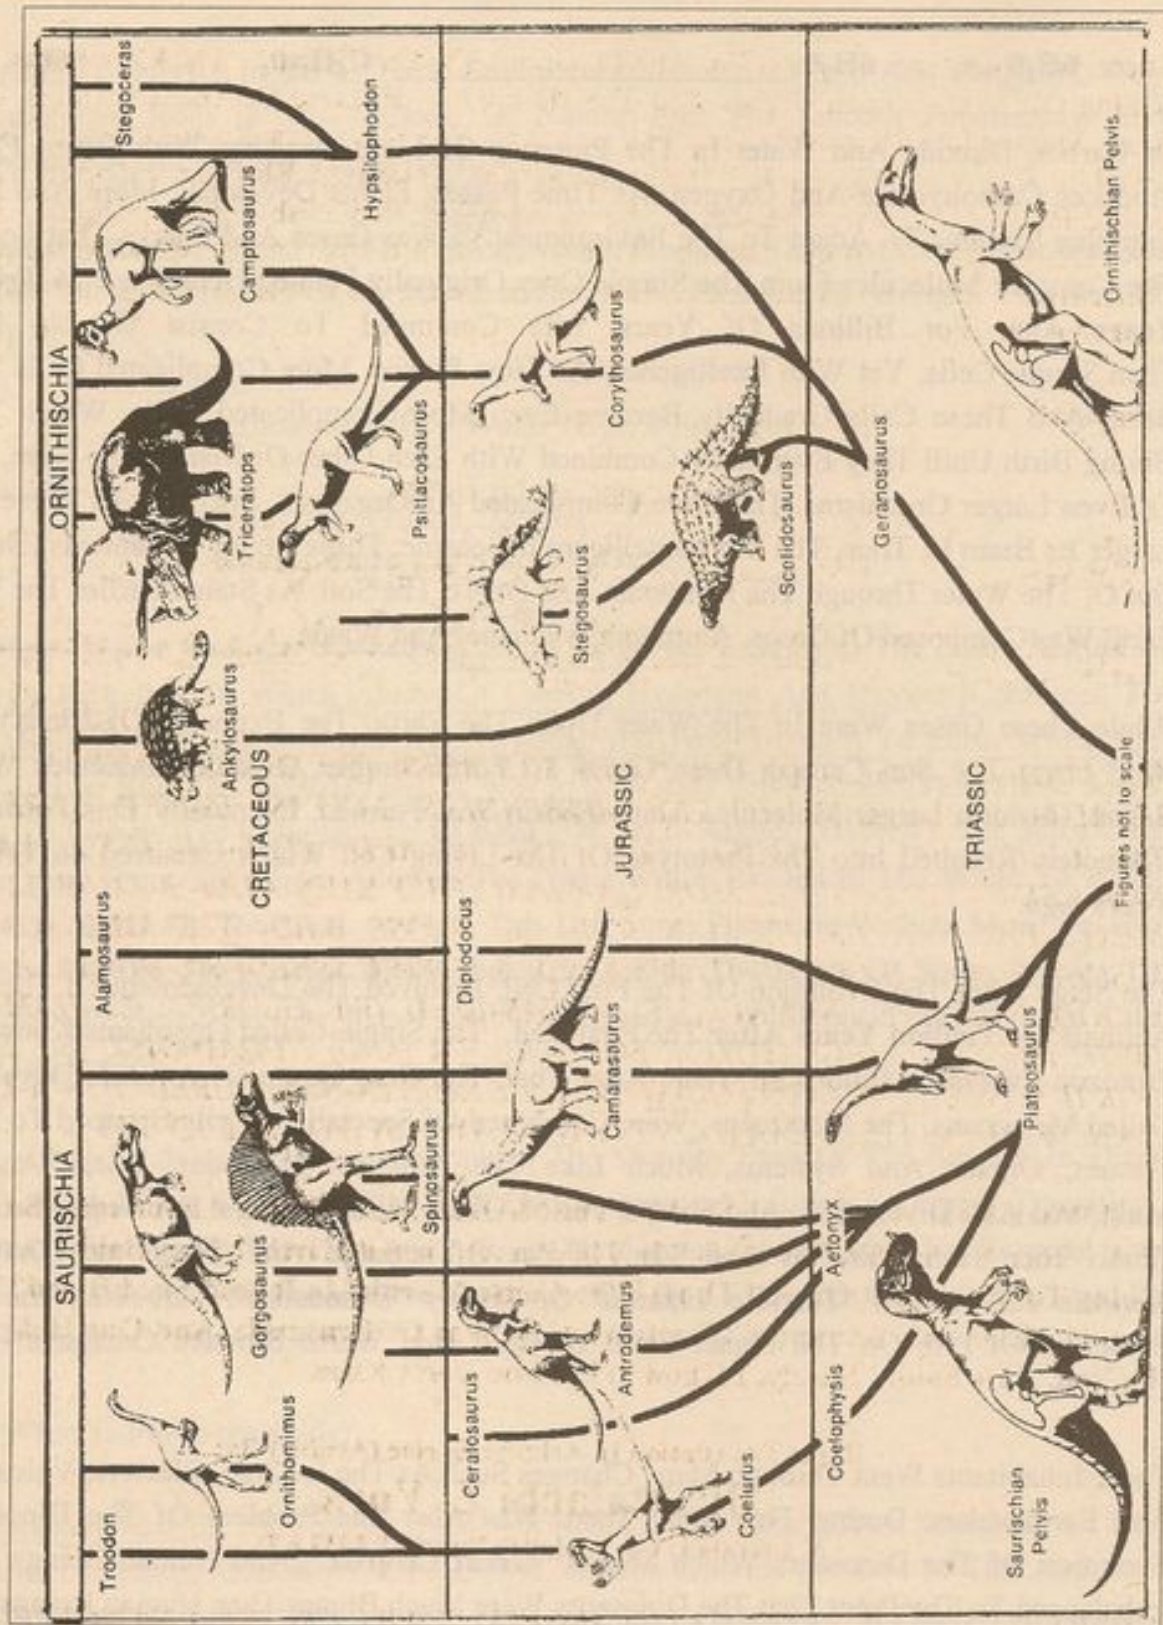

Diagram 35
The Dinosaur Tree

There Was Not Enough Food For The Dinosaurs Or The Humans. The Carnivores Were Killing Off Both Human Beings And The Herbivores. Because Of These Killings, There Were Many More Dinosaurs Than Humans And The Dinosaurs Ruled. Human Beings Lived In Constant Fear Of His Predator. So The **Anunnaqi Eloheem** Decided That It Would Be Best To Have A Meteorite Shower And Then Replenish The Earth Again. These New Human Beings, Homo Sapiens Were To Be In Control As The **Khalifat** (الخلافة), "Successor" - In The Planet Earth And In The Image And After The Likeness Of The Eloheem. (Qur'aan 2:30)

Ques: What Are Meteorites?

Ans: Meteorites Are Shooting Or Falling Stars. Before Meteorites Reach Your Atmosphere They Are Called Meteoroids Or Bolide Fireballs. Meteorite Particles Strike The Atmosphere At A Speed Of 35-95 Km/Per Second Or 22-60 Mi/Per Second. This Causes Them To Vaporize And Create The Visible Meteorites That Can Be Seen In The Sky.

Figure 13
The Arizona Meteor Crater

Ques: Was That The First Meteorite Shower?

Ans: No! The First Meteorite Was (17,250,000) Seventeen Million And Two Hundred Fifty Thousand Years Ago. The Second One Was 2,250,000 Two Million And Two Hundred, And Fifty Thousand Years Ago.

Ques: Was The Second Meteorite Shower Successful?

Ans: Yes, It Was. When The Plan Of This Second Meteorite Shower Was Completed, It Succeeded In Wiping Out Two-Thirds Of The Inhabitants Of The Planet By Way Of A Thick Dust Cloud Blocking The Sun's Light. Most Of Prehistoric Man (Homo Erectus) And Dinosaurs Were Destroyed. Thirteen Tribes In All Of Prehistoric Man Were Demolished. The Surviving Tribes Were The Pygmies, The Watusies And The Hindus. These Tribes Went Behind Waterfalls And In Caves And Caverns Of The Planet Earth To Survive. And The Hindus Went Back To Their Original Planet Called Nirvana In The Canis Minor Star

Constellation, Procyon. Some Of The Dinosaurs Went Back Into The Water As The Great Whales And The Hippopotamas. As A Result Of The Huge Dust Cloud Which Blocked Out The Sun The Planet Had Become **Bohoo** בֹּהוּ "Emptiness", **Tohoo** תוֹהוּ, "Desolate", And **Khoshek** חֹשֶׁךְ "Darkness" Was Upon The Face Of The Deep, As Stated In The First Chapter Of *Genesis 1:2*.

THE REPLENISHING OF TIAMAT

The Bible Story Of Genesis, As You Know It Is Not The Account Of The Creation Or The Very Beginning Of This Planet Earth As Many Translators Have You Believe. (Be-Lie-Eve, To Lie To The Seed Of Eve). Explanations For Natural Occurrences Such As: The Creation Of Tiamat (The Planet Earth), The Making Of The Shamesh (Sun), The Kingu (Moon) And The Kowkawb (Stars); All Of Which Are From The Same Source Was Just Theories. What Scientist Today Describe As Being The "Big Bang" Was The Results Of The Anunnaqi, Eloheem At Work 93,000,000,000 (Ninety Three Billion) Years Ago. These Facts Were Explained In Stories But Were Based On A Limited Amount Of Knowledge And No Overstanding. Those Things That Could Not Be Explained Formed Into What You Call Myths. These Myths Which Developed Into What You Call "Religion" Today; Are The Basis Of All Mythology. Then The Evil One Has You Thinking Every And Anything I Teach Must Be Checked Out Or Verified By His Books Or You Won't Accept It, Or You Look In His Books And Then Call Me And Say "Yes, It's In There, You're Right." However I Will Do My Job; And My Job Is To Teach You The Truth And Facts Beyond Any Doubt. I Am Here To Give You Right Knowledge, A Right Wisdom, And Right Overstanding Of All Things.

Ques: What Is Meant By Replenishing?

Ans: "Replenish" Means "To Re-New, To Fill Again". In Genesis Chapter, 1 You Find The Blue Print Of The Refilling Of A Part Of The Planet Earth Called **Gan** (גן), Meaning "Enclosed Garden," As Opposed To The **Saw-Deh** (שדה), Meaning The "Outer Field" Or The Rest Of The Outer World. That Is The **Maw-Lay** (מלא), Or "Re-Plenishing" In Aramic (Hebrew).

When You Take A Look At The Creation Story Through The Eyes Of Religion, Their Theory Is That A Supernatural Being Called "God" Created The Earth And Everything In It In 6 Days, And On The 7th Day He "Rested". According To This Theory, A God, By Whichever Name You Call Him, Who Always Existed, Decided To Create A Being Called Adam "In His Image And After His Likeness". This Creation Is What Is Termed As The "6 Days Of Creation" Or 144 Hours And If You Say That God Can Create A Whole Universe All The Stars, All The Animals, Design Of The Wings Of Each Butterfly And The Wings Of Each Species In A Mere 7 Days Simply Because God Can Do Everything And Anything Then, 7 Days Is Too Long Of A Period For All Powerful God. Why Would He Need 6 Days And One To Rest Or If As In The Mohammedan Case, "Allah" As They Call God Merely Said "Be" And It Was. Again We'd Come Up With God Shouldn't Have To Make A Word Or A Sound Or A Statement (Be) "**Kun**", For Things To Exist. So This Story Of Creation Or Should I Say Re-Creation Is Recorded In The First Chapter Of Genesis.

I Have Translated And Transliterated From The Original Aramic (Hebrew) Language Your Genesis Story So That You Can See For Yourself The True Hidden Meaning Of Your Scriptures. Pay Close Attention Because This Is The Re-Creation Of Your Planet. This Is How It Happened And This Is How It Was Recorded. (For The Entire Genesis Story Refer To The Book Of Genesis Scroll #90).

The 7 Days Mentioned In Genesis, Are Days Of A Duration Of 7,000 Years Each, Because **Psalm 90:4** And **2 Peters 3:8**, Clearly States That One Day With Yahuwa Or Allah, Is Like 1,000 Years. So, If The Total Number Is 7 Then, Each Day Will Be Equivalent To 7,000 Years. The First 7 Thousand Years Called The 1st Day, Was Spent Bringing The Sun's Light Back Into View And Naming It **Yome** (יום) Daytime, And When It Was Out Of View, It Left A Shadow Not Night, For The Sun Is Always Shining Be It On The Side Of The Planet Where You See It, And Call It Day, Or When You Are Standing In Its Shadow And Wrongfully Refer To It As Night, Instead Of How It Should Be Correctly Referred To As **Lah-Yil** (לילה) Shadow Hours.

AND THE EARTH WAS WITHOUT FORM, AND VOID; AND DARKNESS WAS UPON THE FACE OF THE DEEP. AND THE SPIRIT OF GOD MOVED UPON THE FACE OF THE WATERS.

No Light Could Penetrate The Thick Darkness That Enveloped The Earth. The Sun's Rays Did Not Penetrate The Carbon And Vapor Rings. By The Order Of El Eloh, The Heavy Vapors That Ringed The Earth, Began To Decrease In Speed. They Began To Cool And By The Process Of Condensation, Water Was Formed. Thus, Great Torrents Of Water Fell To Earth Which Was Still Smoldering. These Torrents Of Water Covered The Earth In A

Manner Very Similar To The Volumes Which Descended Upon The Earth In The Time Of Utnafishtim, Also Known As Noah Son Of Lamech And Kamiylah.

Ques: And As For The Second Day?

Ans: The 2nd Day Of The 7,000 Years Making It 14,000 Years In *Genesis 1:8*

Genesis 1:8

Modern Hebrew Script

וַיִּקְרָא אֱלֹהִים לְרִקְיעַ שָׁמַיִם וַיְהִי-עֶרֶב וַיְהִי-בֹקֶר יוֹם שֵׁנִי:

WA (AND) THE ELOHEEM (THESE BEINGS) QAW-RAW (CALLED) THE RAW-QEE-AH (FIRMAMENT, VISIBLE ARCH OF THE SKY) SHAW-MAH-YEEM (TWO SKIES). WA (AND) YEH-HE (IT WAS) EH-REB (DUSK) AND THE BO-QER (BEGINNING OF A NEW DAY, MORNING) WAS THE SHAY-NEE (SECOND PERIOD OF 14,000 YEARS).

And The Eloheem Anunnaqi Named The Firmaments Skies. And It Was Dusk Period And The New 2nd Day Of 7,000 Years Was Over.

Right Translation In Aramic (Hebrew) By:

"AND GOD CALLED THE FIRMAMENT HEAVEN. AND THE EVENING AND THE MORNING WERE THE SECOND DAY."

The Firmament Which Is Also The Same Thing As The Asteroid Belt Was, As We Know It Today, The Sky Or Heaven. It Served To Part The Waters Which Were Above It And The Ones Below It. This Means That It Divided The Waters Which Were Still Circling The Earth (The Outermost Ring That We Mentioned Before), From The Waters Which Were Upon The Earth. The Area Which Descended In The Form Of The Torrents Of Water, Was The "Deep." No Longer Confined By The Ring Of Vapor, The Firmament Was Extended And It Came To Be Known As The "**Heaven.**"

Firstly, As The Waters Descended Upon The Earth, The Contact With The Hot Surfaces Caused Them To Boil. As The Earth Began To Cool Further, A Black, Muddy Substance Was Formed. Later, Being Soothed By The Winds, The Boiling Waters Sizzled And This Gave The Earth An Appearance Of A Giant Raisin Beneath Millions Of Tons Of Water. Parts Of The Crinkled Mass Were Greatly Elevated Above Others And In This Way, Mountains Were Formed.

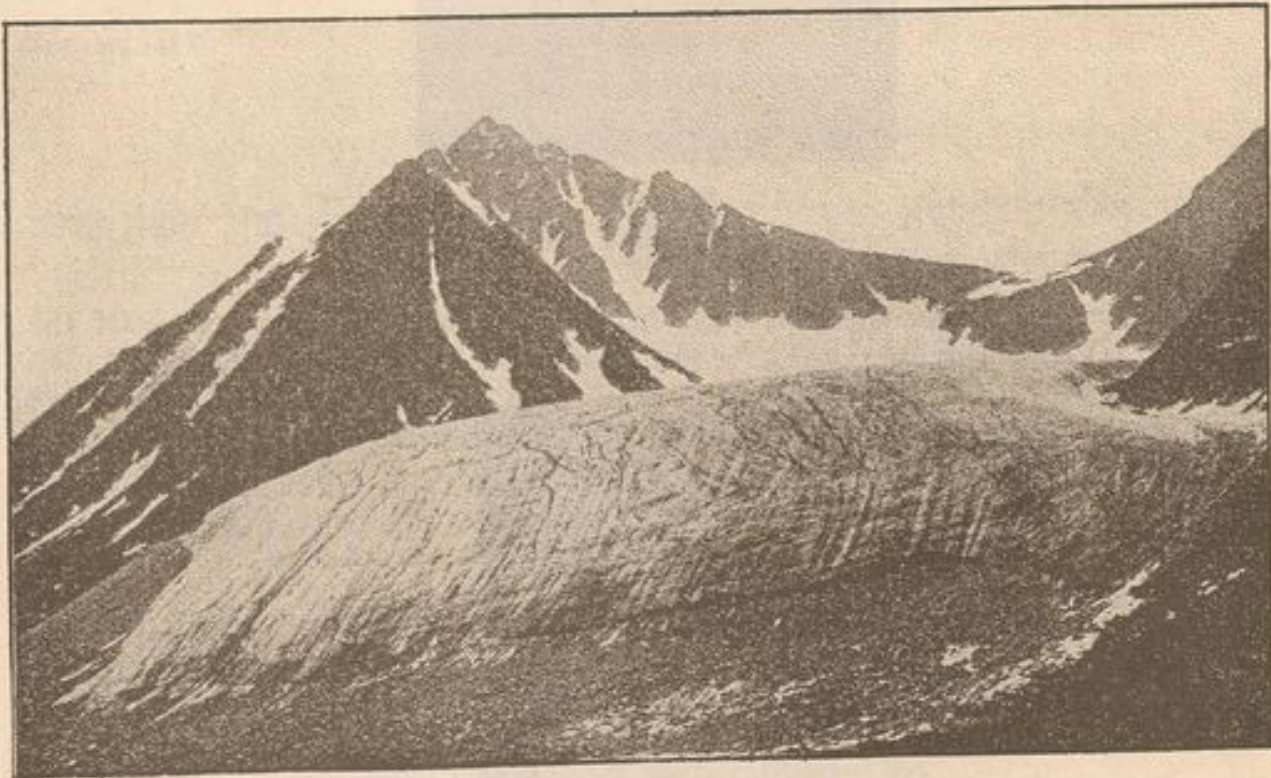

Figure 20

During This Period Of Time, The Tides Or The Waters, Left The Planet Life On The Ground With Very Little Moisture. However, It Was An Agent In Helping The Seeds Of Certain Different Species Reproduce In The Planet Earth.

This Is To Say That From The Appearance Of The Setting Of The Sun, When The Sky Has Lost Its Brightness And Is On The Verge Of Darkness, Until It Peeks Over The Horizon. The Appearance Of Sunrise Marks The Opening And The Closing Of The Day. Yet, The First "Day" Of Creation Spanned An Entire Cycle Of Seven Thousand Years.

"AND THE EVENING AND THE MORNING WERE THE THIRD DAY."

This Was The Growth Of Vegetation For Eating, Herbs For Healing, And Flowers For Beauty Were Grown.

Plants Today Exist In A Variety Of Sizes And Shapes. As I Mentioned Before The First Plants Were Simple, One-Celled Structures, Examples Of Which Still Exist. From These Simple Organisms, Plants Of Multi-Cellular Design Developed. Yet, In Comparison To The Large Flowering Plants, These Are Still Considered "Lower" Plants. They Occupy The Position Between The Simplest Of Plants And The Highest. To This Group Belongs The Plants Which Neither Produce Seeds Nor Have Food Or Water Vessels. Some Of These However, Have Begun To Develop These Systems, In This Category. They Are The Ferns Which Thrive Best In The Moist Tropical Forests.

To Meet The Demands Of Survival In A Changing Environment, Plants Grew In Size And Generated Specialized Parts. The Flower, For Example, Was A Modification Of The Stem With Highly Specialized Leaves For Carrying On Reproduction. In Fact, This Function Was The Main Purpose Of The Flower. This Type Of Reproduction In Plants Is Called Sexual Reproduction, For It Involves Male And Female Parts.

Plants Were Able To Develop Specialized Parts Because Firstly, They Had Evolved Specialized Cells Many Of Which Were Necessary To Form New Tissue. The Following Are Some Of The Types Of Cells And Tissues Which Make Up The Higher Plants.

Figure 23
Plant Life

- 1) **Meristem** - This Type Of Tissue Makes Continued Growth Of The Plant Possible. After The Cells Divide, Differentiation Occurs; New Cells Take On Specific Structure And Function.
- 2) **Epidermal** - This Type Of Tissue Secretes A Waxy Cuticle Which Protects The Herbaceous And Young Woody Plants From The Effect Of Heat And Dryness.
- 3) **Transport** - Or Conductive Tissue Made Of Long, Tube-Shaped Cells Called Xylem (Pron. Zylem) And Phloem. Xylem Cells Conduct Water And Minerals Upward, From The Roots Through The Stem And Leaves. Phloem Cells Carry The By-Products Of The Process Of Photosynthesis Downward, To The Roots.
- 4) **Photosynthetic Tissue**- Composed Of Large Cells Which Contain Chloroplast (Substances Which Are Made Up Of A Green Material). This Type Of Tissue Is Found In All Green Parts Of The Plant.
- 5) **Storage Tissue** - Made Of Cells With Large Vacuoles (Cell Openings) And Granules Of Carbohydrates And Proteins. This Tissue Is Found In The Stems, Roots And Seeds.
- 6) **Supporting Tissue** - Made Of Long Cells With Thick Walls. These Help The Tall Plants To Stay Upright.

In Addition To Photosynthesis, The Nourishment Of Plants Is Also Made Possible By The Absorption Of The Various Minerals Found In The Soil. As We Know, The Earth Was Originally Carbon. The Carbon Atoms Integrated With Oxygen, Hydrogen And Other Elements That Existed, And Formed New Elements. For Example, **Copper (Cu)**, **Magnesium (Mg)**, **Manganese (Mn)**, **Zinc (Z)** And **Iron (Fe)**, All Are Needed For The Growth Of The Plant. The Element **Flourine** (Atomic #9) Was The Next Element To Be Formed After Oxygen. Flourine Itself Is A Powerful Oxidizing Agent. It Is Necessary For The Process Of The Taking In Of Nutrients And The Releasing Of The Energy Obtained From The Food. The Group Of Elements From Flourine To Chlorine (Atomic #17) Played A Most Important Role In The Sustaining Of The Earth's Vegetation And Plant Life.

*"AND WE SEND THE FECUNDATING WINDS, THEN CAUSE THE RAIN TO DESCEND
FROM THE SKY, THEREWITH PROVIDING YOU WITH WATER (IN ABUNDANCE),
THOUGH YE ARE NOT THE GUARDIANS OF ITS STORES."*

The Winds Aid In The Pollination Of Flowers Which In Turn, Causes The Plants To Bear Fruit. The Winds Also Help In The Dispersal Of The Seed, So Certain Types Of Seeds Are Equipped With The Type Of Structure, A Kind Of Wing, That Enables Their Transport By The Wind. Can You Now See The Divine Majesty Of **El Eloah's** Handiwork? Does Water, Air Or Earth Have Intelligence As You Know It? Can These Elements Direct Themselves Or Dictate To Themselves Change? Do The Winds Aimlessly Blow In The Earth. The Earth And The Planets Are Mindless. They Have No Power Of Judgement Nor Do They Have Feelings As You Know It. The Same Is True Of The Elements. Nevertheless, The Clouds Still Continue To Shower The Earth After It Had Endured The Scorching Heat Of The Sun. Do You Think That The Clouds Look Down At Human Beings And At The Herbs And Grasses Of The Fields And Consider Their Unfortunate Circumstance Of Thirst? Do They Perform Their Functions Out Of Kindness? The Elements, The Sun. The Planets Are Not Acting On Their Own Nor By Accident. The Intelligence Behind Their Actions Is **El Eloah**. The Sun Is Summoned To Shine, The Water Is Ordered To Flow And The Wind To Blow. All These Things Are Controlled And Guided By **El Eloah**. Only He, In His Great Mercy,

Directs The Elements So They Can Help The Condition Of The Creatures He Has Placed Upon The Earth. There Is A Great, Sometimes Hidden Potential Within The Dead Earth. Yet It Comes Alive With The Help Of The Winds Which Carry The Clouds And The Seeds, Producing All Kinds Of Plant Life In Due Season.

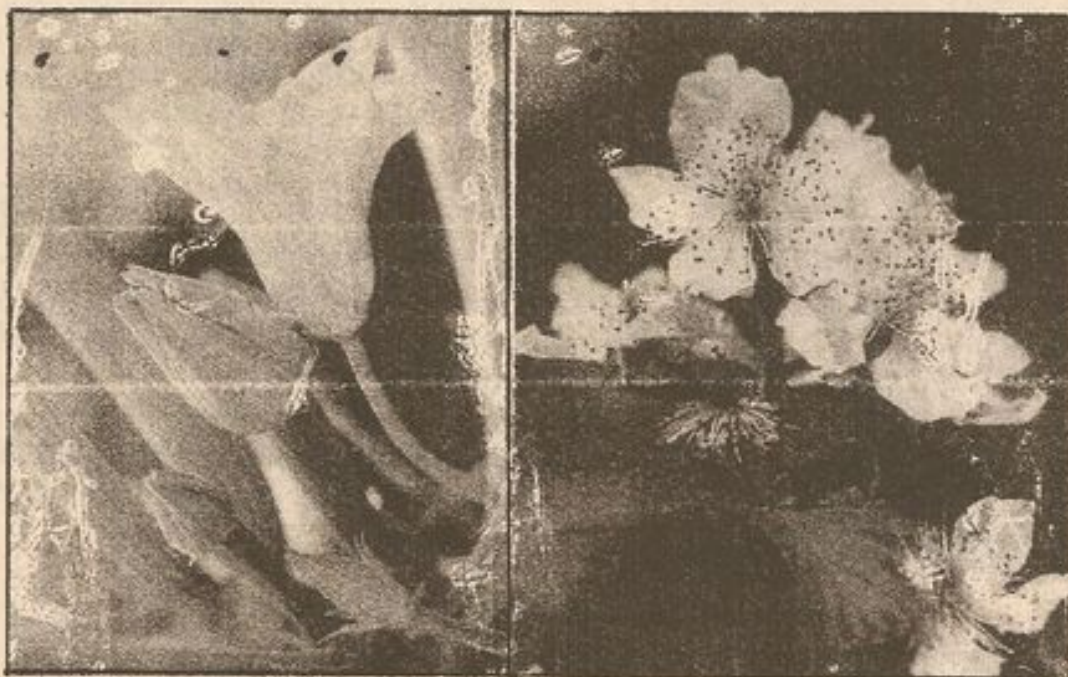

Figure 25
Flowers

Within The Flower Are Intricate Parts Which All Work Together. The Process Of Fertilization Is Aided By The Wind And By The Small Insects, Such As Bees And Butterflies. Fertilization Is Necessary So That The Plants Can Reproduce, But Before It Can Take Place, Pollination Must Occur. Thereby The Pollen, A Golden, Fine Powder, Is Carried From One Flower To Another. Some Plants May Never Develop Seeds Unless They Are Visited By Insects Such As Bees. As The Bees Move From Flower To Flower, Attracted By The Fragrance, They Carry The Pollen Dust On Their Legs And Other Body Parts. Other Plants Are Pollinated By The Wind. Pollen Grains Produced By The Male Part Of The Flower Reaches The Pistil Of The Same Or Another Flower. From There, They Develop Into Tubes Which Holds Ovules, Called The Ovary. The Ovules Subsequently Grow Into The Seeds And The Ovary Into A Fruit. Thus The Fruit Forms A Protective Container For The Seeds From Which New Plants Of The Same Species Will Develop. Some Flowers Have Both Stamens And Pistils And The Parts Of The Flower Are So Arranged That They Can Easily Come In Contact With Each Other. In This Case, The Stamens And The Pistils Are Completely Enclosed And The Flower Does Not Require Insects Or The Wind To Start The Process Of Pollination.

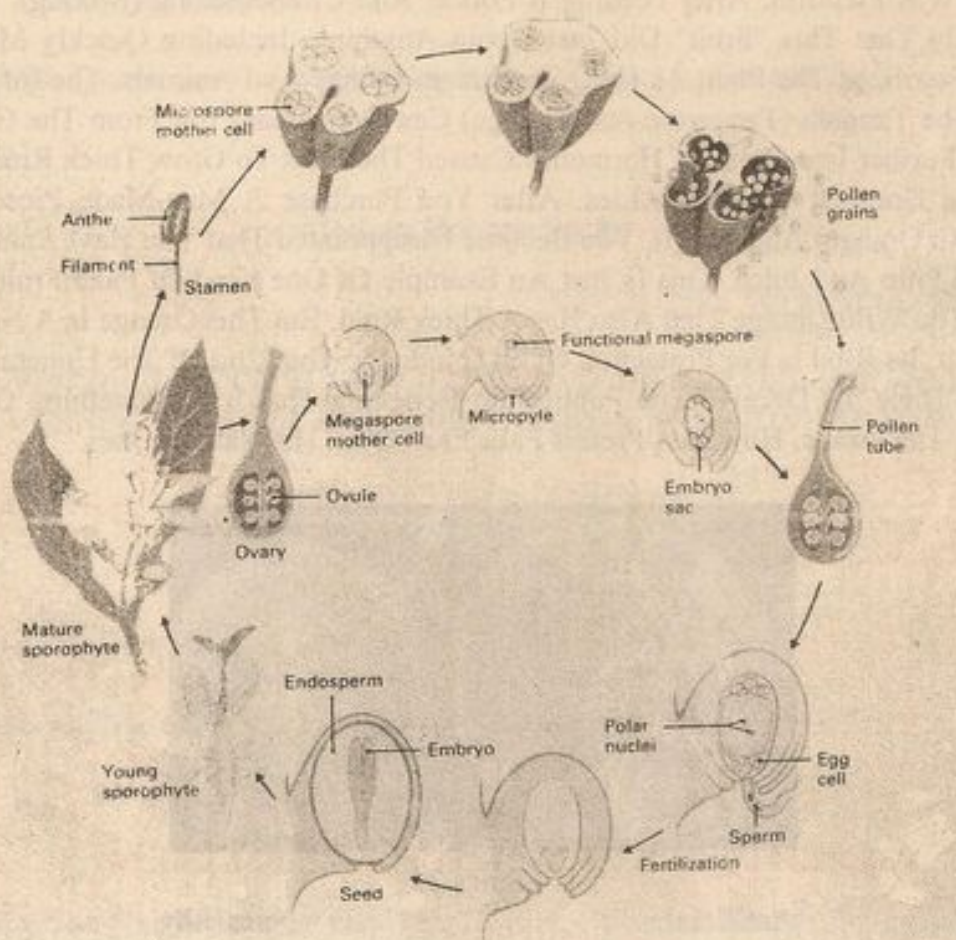

Diagram 37
Life Cycle Of A Flowering Plant

Many Of The So-Called "Fruits" Eaten Today Are Infertile. Real Fruits Of Some Varieties Are Becoming Extinct Because Of The Luciferian's Tampering With What's Natural. There Are Seedless Grapes, Seedless Grapefruits, Seedless Oranges All Good For Nothing! Whatever Happened To "The Fruit Tree, Yielding Fruit After It's Kind, Whose Seed Is In Itself" Upon The Earth?

After Much Experimentation, The Evil One Was Able To Come Up With Several Varieties Of Seedless Fruits. These Were Supposedly For Human Being's Enjoyment. He Has Succeeded In Convincing Many That As Good A Fruit As The Orange Was, The Pits Were Getting In Their Way. Or That A Salad With Seedless Tomatoes Would Look A Lot Better Than One With Seeds. Human Beings Have Conditioned You To Believe That The Fruit Is Both Abundant And Its Quality Superb. Well, He Did Not Really Lie To You. In Fact, He Told You The Truth, The Lie That You Wanted To Believe. Let's Look Closely At This:

The Fruit Was Plentiful. After Feeding It Poison And Crossbreeding (Mixing), It Is More Than Likely That This "Fruit" Did Just About Anything, Including Quickly Multiplying. Mankind Sterilized The Plant As He Does Human Beings And Animals. The Infertile Fruit Such As The Tangola (Tangerine And Orange) Can Only Bear Fruit From The Grafting Of The Two. Further Injections Of Hormones Caused The Fruit To Grow Thick Rinds. Here Is Where The Core Of Deception Lies. After You Purchase A Man-Made Piece Of Fruit (Perhaps An Orange) And Peel It, You Become Disappointed That You Have Paid For More Rind Than Pulp And Juice. This Is Just An Example Of One Kind Of Fake Fruit. There Is, However The Wild Orange That Also Has A Thick Rind, But This Orange Is A Natural And Fertile Fruit. Its Rind Is For Protection Of Its Goodness. The Rind Of The Unnatural Orange Is Merely There To Deceive The Public Into Believing That It Is Something Other Than What It Is. The Public, However, Prefers Fake Fruit Over The Natural Ones.

Figure 26

**Artificial
Hybrid**

**Naturally
Grown**

Better Oranges Are Produced Through Application Of Genetic Methods. The Sweet, Juicy, Thin-Skinned, Almost Seedless Orange On The Left, Is Far Superior To Some People, To The Sour, Heavily Seeded Orange From Which It Is Derived. Then There Is The Fruit That He Caused To Be Super Juicy And Pleasant. Through Genetic Manipulation, Vegetables And Plants Are Being Grown In The Laboratory. It Was Also Convenient To Eat Because You No Longer Had To "Waste Time" Picking And Spitting Out The Seeds.

In This Way You Were Duped. The Evil One Continues To Mix Truth With Lies And It Is Only The Weakest Person Who Is Not Able To Seek Out The Truth, The Real Truth, Which Is Simply That: It Is Lawful That You Eat From The Fruit Tree Yielding Fruit After Its Kind, "Whose Seed Is In Itself."

Once The Evil One Had You Drooling At The Mouth And Craving For The Highly Advertised California Oranges, Seedless Grapes, Etc., He Raised Their Prices. So Now You Pay For Trash -- Sterile Fruit, Actually Forbidden Fruit That Comes From "The Fruit Tree Yielding Fruit Not After Its Kind, Whose Seed Is Not In Itself." Therefore, Having Nothing To Do With El Eloh's Creation. The Fruit Of Creation And The Fruit Of Deceit Are Two Different Kinds Of Fruit.

"AND THE EVENING AND THE MORNING WERE THE FOURTH DAY."

THE EMERGENCE OF THE SUN

It Was During The Fourth Creative Day That El Eloh Caused A Greater Emergence Of The Sun And Therefore, Made A Clearer Definition Of Day And Shadow Hours. This Was The Clearing Of The Clouds Creating A Healthy Atmosphere And Environment; Beautiful Days, Starlit Skies Through The Shadow Hours, Clean Fresh Air, Flowing Water, And Streams. This Was Made Possible By The Dissolution Of The Carbon Ring That Encircled The Earth. The Sun And Moon Had Long Been Created Before This Time, Yet, It Was Only Now That They Were Able To Fulfill Their Appointed Roles.

The Sun Was Given The Rulership Of The Day And The Moon And Stars Were Given The Rulership Of The Shadow Hour (Night). Yet, It Was The Earth's Rotation Upon Its Axis And Its Revolving Around The Sun That Produced The Effects Of Day And Shadow Hour.

"AND HE IT IS WHO MADE FOR YOU THE STARS TO GUIDE YOU WHEN IN DARKNESS, OVER THE DRY LANDS AND SEAS. AND CERTAINLY WE MADE OUR SIGNS DETAILED FOR THE NATION OF PEOPLE WITH KNOWLEDGE."

Stars Are Always Present In The Sky During The Shadow Hour, As Well As The Day, But We Cannot See Them During The Day Because Of The Brightness Of The Sun, Earth's Closest Star. On A Clear Summer Night, One May See About Two Thousand Stars With The Naked Eye. Yet With A Telescope, Many More Can Be Seen. From Earth, They May Appear Stationary (Not Moving) But They Are Not. Most Of The Stars One Sees Are Arranged In Groups Or Specific Patterns Called Constellations. Although They May Appear Close Together, Stars Are Many Light Years Apart.

Figure 27
A Star

Stars Began As Clouds Of Gas Which Materialized From Clusters Of Hydrogen Atoms. They Existed In Even More Massive Clouds Of Gas That Gave Birth To The Galaxies. Over A Period Of Time, Increasing Degrees Of Contraction And Increase In Heat Occurred Until Reactions In Their Centers Produced Intense Heat And Brightness. Hydrogen, The Most Abundant And Simplest Gas In The Universe Is The Fuel Of The Stars. All Elements And Other Substances In Existence Came From Hydrogen. In The Stellar Cores, Hydrogen Is Converted Into Helium And Other Heavier Elements. For Ninety Percent Of Its Lifetime, This Is The Main Activity Of A Star. This Period Of Burning Hydrogen At A Consistent Rate, Designates It As A "Main Sequence," Star. Such A Star Is The Sun That Is The Center Of Our Solar System. The Extremes Of This Stage Are The Exceptionally Bright And The Exceptionally Dim Stars.

The Science Of Creation

Stars Begin To Decline When All The Hydrogen Is Used Up. It Then Becomes What Astronomers Call A "Red Giant." A Star Goes Through Several Stages Of Expansion And Shrinkage As It Exhausts Its Nuclear Fuel, Eventually Becoming A Compact "**White Dwarf**." A Small, Dead Star That May Be Smaller Than The Planet Earth. Larger Stars Experience A More Dramatic Death. After Becoming Red Giants, They Collapse Upon Themselves, Producing Intense Heat And Causing Their Cores To Explode. Such An Explosion Is Called A "**Supernova**."

From "**Super**" A Prefix Of Latin Origin Meaning, "*Over And Above*." And "**Nova**" Meaning "*New*." This Is Because It Appears To The Naked Eye As A Bright, New Star. Sometimes The Explosion Blows The Entire Star To Bits And At Other Times A Lump May Be Left To Become A Neutron Star. The Largest Remaining Bit Of The Star May Also Become So Compressed And Possess Such An Intense Gravitational Pull That It Becomes A Black Hole.

Black Holes Give Off No Light And Act Like Stellar Vacuum Cleaners, Sucking Up Matter And Energy From Space. They Can Be Compared To The Effect That Is Produced When A Cup Of Liquid Is Stirred At High Speed. Once The Spoon Is Removed, A Hole Is Made In The Center Like A Miniature Whirlpool And Floating Objects Are Drawn And Sucked Into The Center. So Black Holes Will Absorb Any Stray Matter Or Energy That Passes Within A Certain Range Of Its Horizon.

• The Most High Created All Things For Their Specific Functions -- Even Those Which Human Beings May Not Overstand. Events In The Universe Affect And Interact With Each Other. In Other Words, There Is No Such Thing As An "Isolated Incident" That Affects Nothing Outside Of Itself. Life On Earth To The Great Extent, Depends On The Activities Of The Sun. The Sun As We Have Shown Came Into Existence By The Combination Of Hydrogen And Helium Atoms, Which Could Not Have Come About But By The Command Of El Eloh. The Sun, Moon And Stars Produce The Much Needed Illumination For The Earth. One Taking Up Where The Other Leaves Off. Yet This Is Only Made Possible By The Motions Of These Heavenly Bodies. The Earth Does Not Stand Still, Nor Does The Moon Nor The Sun Nor Any Other Heavenly Body For That Matter.

In The Previous Chapter I Mentioned The Importance Of The Sun In The Development Of Vegetation On The Earth. Vegetation On The Earth Was Most Essential For The Survival And Multiplication Of The Many Species That Were Yet To Develop. When Allah Appointed The Sun And The Moon As Indicators Or Signs Of The Times, Seasons, Days And Years, Here Marked The Cycle On Earth Of Beginning And Ending. They Were Like Two Great Clocks That Did Not Need Winding.

If The Sun Shined Continuously And Was Unaffected By The Revolving Earth, There Would Be No Shadow Hour (Night) And The Earth Would Have No Time For Rest. It Would Be Extremely Hot Here On Earth And Among Other Things, The Earth's Vegetation Would

Perish. El Eloh, Out Of His Wisdom And Mercy, Created The Moon To Buffer The Rays Of The Sun, In Order That The Earth Could Be Cooled. The Sun Itself Has 1 Million Years Left To Burn Out.

Ques: What Are The Different Stations Of The Moon?

Ans: These Are The Stages The Moon Goes Through In Its Orbit Around The Earth; These Stages Are Recognized By The Changes In The Shape Of The Moon Which Is Also Known As Lunar And Sheshqi, Kingu, Yareach, Or Qamar. The Moon Is A Satellite Of The Earth And Is Among The Smaller Heavenly Bodies. As The Earth Orbits The Sun, So Does The Moon Orbit The Earth. Within A Period Of Twenty Seven And A Half Days, The Moon Completes An Entire Cycle Of Revolution Around The Earth. This Period Is Used To Designate The Period Of The Lunar Month In The Islaamic Calendar Founded In The Year 622 A.D. The Days After A Full (Completely Round And Brightest) Moon, It Gradually Grows Smaller And Less Full Until It Is A Quarter Of Its Former Size

Thereafter It Seems To Disappear. Later On Its Light Emerges In The Shape Of A Very Slender Crescent. This Is The Manifestation Of The New Moon. From This Point The Moon Will Seem To Grow Again, Passing Through The Stages Until It Casts Its Full Light Upon The Earth. The Changes Become Evident After Seven Day Intervals. The "Dark Moon" Or The Period Of Apparent Disappearance Only Lasts For One Shadow Hour.

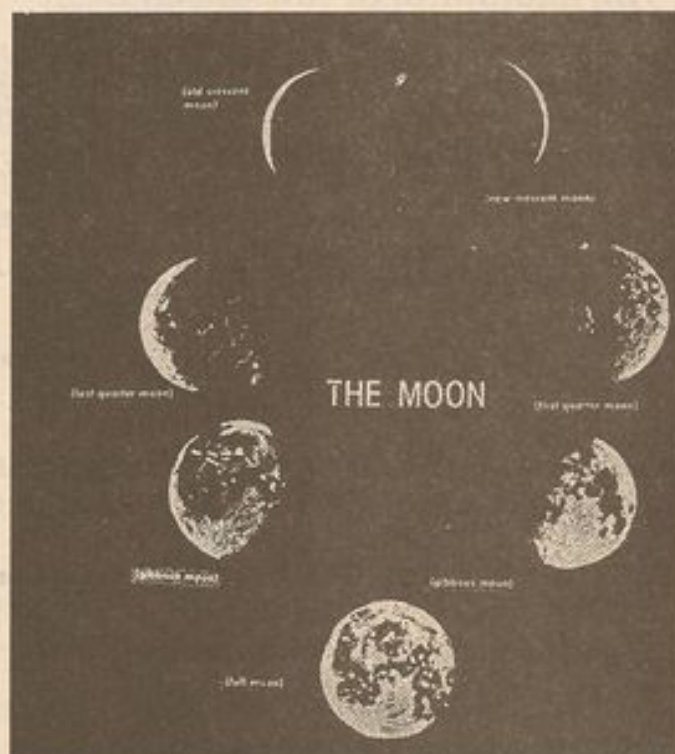

Figure 28

The Science Of Creation

Ques: How Does The Earth Get Its Seasons?

Ans: By Way Of The Earth's Rotation Around The Sun, The Changes In The Elements Are Observed. These Are The Seasons, And According To Where A Particular Place Is Located On Earth, It May Experience Two, Three Or Four Seasons. These Changes Are Very Helpful And Necessary Because They Are The Main Factors In The Germination, Growth And Reproduction Of The Plant Kingdom. This Cycle Is The Mainstay Of Physical Life On Earth. Without These Vital Changes, There Would Be No Food For The Higher Animals And Mankind. We Witness The Beauty Of This Aspect Of Creation On The Outskirts Of The City, The Countryside And Under The Open Sky At Shadow Hour. The Most High Is The Controller Of All Things In The Universe. Without Him There Would Be Nothing And It Is By His Command The Limits Which He Has Established For Each Part Of Creation That Everything Is Kept In Order.

In Order That The Moon Be Rendered Prideless And Subservient, Yet Still Maintain Its Appointed Functions, El Eloh Made Visible The Stars. Although Much Farther Away Than The Moon, Their Light Still Reaches The Earth And Aids Mankind In Finding His Direction, Times Of The Year, Etc. So You See, Nothing In The Universe Is Better Than Another, For All Created Things Have Their Purpose And Each Are As Important As The Other.

THE BEGINNING OF ANIMAL LIFE

Ques: And As For The 5th Day?

Ans: In The 5th Day Of 7,000 Years Making It 35,000 Years In *Genesis 1:23*

Genesis 1:23

"AND THE EVENING AND THE MORNING WERE THE FIFTH DAY.

The Science Of Creation

This Was When The Skies Filled With Birds And The Water Filled With Swimming Creatures And All Other Kinds Of Breathing Beings Began To Roam In The Enclosed Garden. By Arazul Or Arazu, As Mentioned Before, Early Earth Was Composed Of The Gases, Ammonia And Methane, In Addition To Water. The Cooling Of The Earth And The Subsequent Falling Of The Vapor Rings, Allowed These Gases To Reach The Water Upon The Earth. The Exposure Of Ultra-Violet Rays From The Sun (Made Possible By The Greater Availability Of Sunlight), Caused These Gases To Form Simple, Organic Molecules. These Began To Form Larger And Larger Molecules, Until Protein Was Formed. It Was This Formation Which Ultimately Resulted In The Prototype Of The Living Cell. Bear In Mind, That These Chain Reactions Did Not Occur By Blind Chance But Only By The Will Of El Eloah.

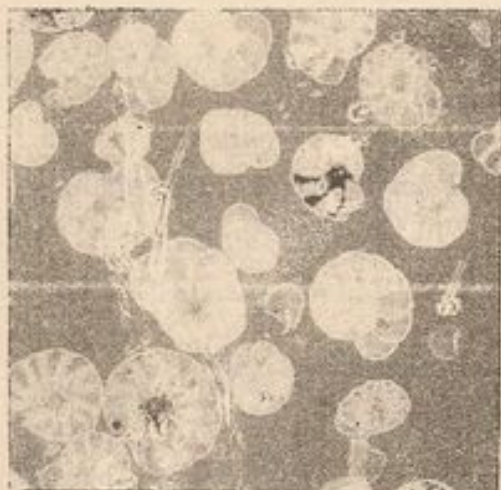

Diagram 38
Protozoa

The Stage After The Creation Of The First Cell Involved The Development Of The First Animals -- These Were The Single Celled Organisms. This Group Are Known Today As "Protozoa," From The Greek Word "Proto," (πρωτο) Meaning "First, In Time" And "Zoa," (ζωα) From "Zoia," Meaning "Animals." The Simplest Of This Group Was/Is The "Amoeba," A Small Mass Of Transparent Protoplasm (Cytoplasm) Which Does Not Even Have A Definite Shape.

El Eloah's Recipe For Protoplasm

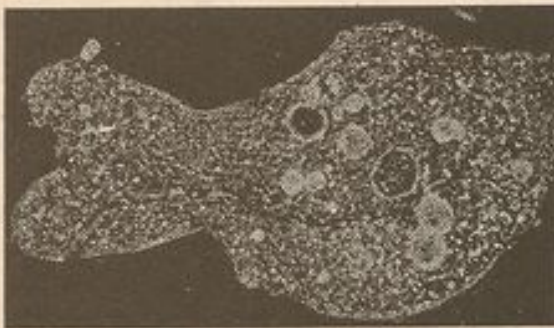

Element	Percentage	Element	Percentage
Hydrogen	10.0	Sulfur	0.2
Carbon	10.5	Chlorine	0.1
Nitrogen	2.5	Potassium	0.3
Oxygen	76.0	Calcium	0.02
Sodium	0.04	Iron	0.01
Magnesium	0.02	Cobalt	Trace
Phosphorus	0.3	Zinc	Trace

The Science Of Creation

Protoplasm Is Made Up Of: 80% Water
15% Protein
3% Fatty Acids
1% Carbohydrates
1% Salt

- 1) **Water** (Hydrogen + Oxygen) Is One Of The Mediums In Which Chemical Reactions Occur. It Is The Largest Component Of Protoplasm.
- 2) **Protein** Is Built By The Amino Acids Which Were Formed From The Basic Elements Of Carbon, Oxygen And Nitrogen. Amino Acids Are The Building Blocks Of Life.
- 3) **Fatty Acids** Are Composed Of Carbon, Hydrogen, Oxygen, And In Some Cases, Phosphorous.
- 4) **Carboydrates** Are Substances Made Of Carbon, Hydrogen And Oxygen.
- 5) **Salts Or Mineral Salts**, Are Made Of Sodium And Other Elements. In Combination With Chlorine, It Produced Sodium Chloride. Other Sodium Compounds Are Made With Calcium, Flourine, Iron And Iodine.

So You See The **Amoeba**, As An Example Of The First Form Of Animal Life, Was Composed Of Basic Elements. These One-Celled Animals Feed On Other Microscopic Organisms By Engulfing Their Food And Making A Small Cavity In Which To Digest It. The Organism Moves By Streaming Its Cytoplasm To Produce The Shape Of A Limb, These Are Called **Pseudopodia**, Or False Feet. A Full-Sized Amoeba May Reproduce By Asexual Reproduction. The Nucleus Divides Into Two Parts And Moves Away From The Center Of The Cell In Opposite Directions. At The Same Time, The Cytoplasm Forms Around The New Nuclei And The Two Parts Separate, Producing Two Entities. Other Animals Of This Group, Display Similar Characteristics. Many Of Them Lead A Parasitic Mode Of Existence And Are The Causes Of Disease In Mankind And Animals.

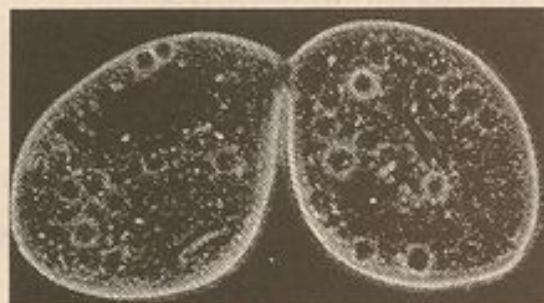

Diagram 39

Many Types Of Protozoans Live In The Intestines Or Other Parts Of The Bodies Of Humans And Animals Without Causing Any Harm. Some Are Neither Harmful Nor Beneficial And Yet Others Contribute To The Formation Of New Soils And Other Earth Deposits. Much Has Been Learned About Living Protoplasm From The Study Of These Simple Forms Of Animal Life.

The Next Group Of Animals After The Protozoans Were The "Metazoans." These Differed In Many Ways, From The Protozoans. Metazoan Organisms Are Composed Of Distinct Tissues And Organs Sometimes Possessing Several Organ Systems. They Are Of Course Many Times Larger Than The First Group Of Animals. The Increase In Size Of Living Things Came About By The Formation Of Colonies Of Cells And By The Specialization Of A Specific Task. Such Specific Tasks Were Necessary For The Survival Of The Species. For One Thing, Animals, Unlike Plants, Were Incapable Of Producing Their Own Food. Therefore, They Needed Organs For Movement With Which They Could Find Food; And Organs For Converting That Food Into Energy. These Animals Also Needed Protection For Their Bodies. So El Eloh In His Infinite Wisdom, Had Gifted Each Colony Of Cells With The Specific Ability To Function According To The Needs Of The Organism. The Animals Multiplied And Diversified And The Waters Teemed With Life. From The One Celled Animals To The Many Marine Invertebrates (Animals Without Bony Skeletons) To The Large Marine Mammals; All Animals, Like The Plants, Developed Into A Wide Variety Of Forms In The Oceans Before They Were Able To Move On To The Land.

The Creatures That Inhabited The Waters, Multiplied According To The Same Pattern As The Plants We Discussed Earlier: That Is, By Fusion Of First Two Cells And Then Subsequent Division And Multiplication. To Illustrate This Point, Look Below At The Two Diagrams. Can You Tell Which Is The Cell Division Of A Plant And Which Is Of An Animal?

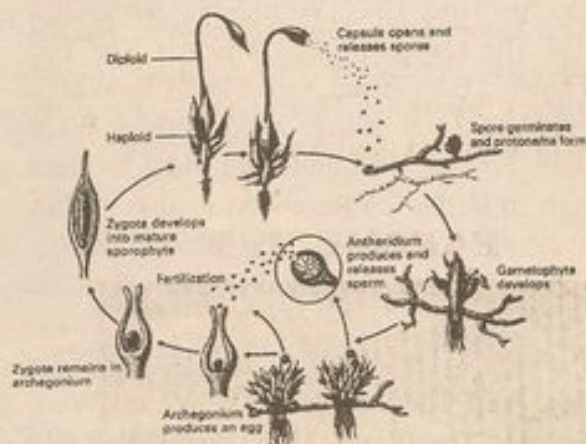

Diagram 40
Cell Division In Onion Skin

Diagram 41
Cell Division In Fish

In Both Diagrams The Cells Are Shown Separating In The Same Manner, According To Each Stage Of Division.

Ques: Which Is Which?

Ans: Diagram (41) Is The Cell Division Of A Fish. Diagram (40) Is The Cell Division Of An Onion Skin. It Was In Such A Manner That These Creatures Multiplied. Can You Witness And Overstand The Consistency Involved In El Eloah's Master Plan Of The Creation Of Everything. A Pair Is A Pair, And All These Pairs Were Commanded To Increase, And They Did Increase Within Their Own Species. This Pairing Action Is Part Of The Plan That All Living Things Have In Common, The Ability To Reproduce With Another Component Or Partner. Even The Process Called "Asexual" Reproduction, A Single Cell Still Must Divide Into Two In Order To Increase.

Did You Ever Wonder Why **El Eloah** Made Things Function In Pairs And Not Threes. It Takes Two To Start The Ball Rolling. Two Is The Number That Leads To Ultimate Dependency. Because Of Its Nature, It Paves And In Turn, Must Be Subservient To The One Responsible For Their Existence -- The Most High.

Living Things Were Placed In Their Categories By **El Eloah** And They All Abide By His Commandments. All Creatures Would, Without The Interference Of Mankind, Reproduce According To And With Their Own Kind. In Other Words They Were Highly Prejudice. In Spite Of This, They Were Able To Live And Function Harmoniously. Over A Period Of Time, The Sea Dwelling Creatures, Began To Migrate Into The Rivers And Streams And Into The Swamps. Plants Were Still Very Plentiful At This Stage Of The Earth's Development.

In Order To Survive The New Environments, They Had To Grow New, And Adaptive Structures. In The Journey From Water To Land, They Encountered Three Main Problems: Firstly, They Needed A Moisture Regulating Skin, So That They Would Not Dry Out. Secondly, They Had To Develop Organs To Extract The Oxygen From The Air, (In The Oceans, They Obtained It From The Water). And Thirdly, They Need Safe Places In Which To Deposit Their Eggs. Consequently, The Development Of Lungs And Limbs Were Among The Most Important Steps For The Adaptation To Life On Land. The Most Evident Changes Occured In The Skin Which Became Tough In Order To Retain Moisture Within The Body And To Protect It Against Other Unfavorable Conditions. The Blood Vessels Multiplied, The Fish-Type Skull Flattened And The Jaw Became Attached Directly To The Skull.

These Descriptions, Of Course, Match The Reptiles, And The Amphibians, Which Were The First Animals To Appear On The Land, They Favored The Warm, Moist Areas And Did Not Move Into The Colder Regions Until They Developed Skin That Could Deal With That Type Of Environment.

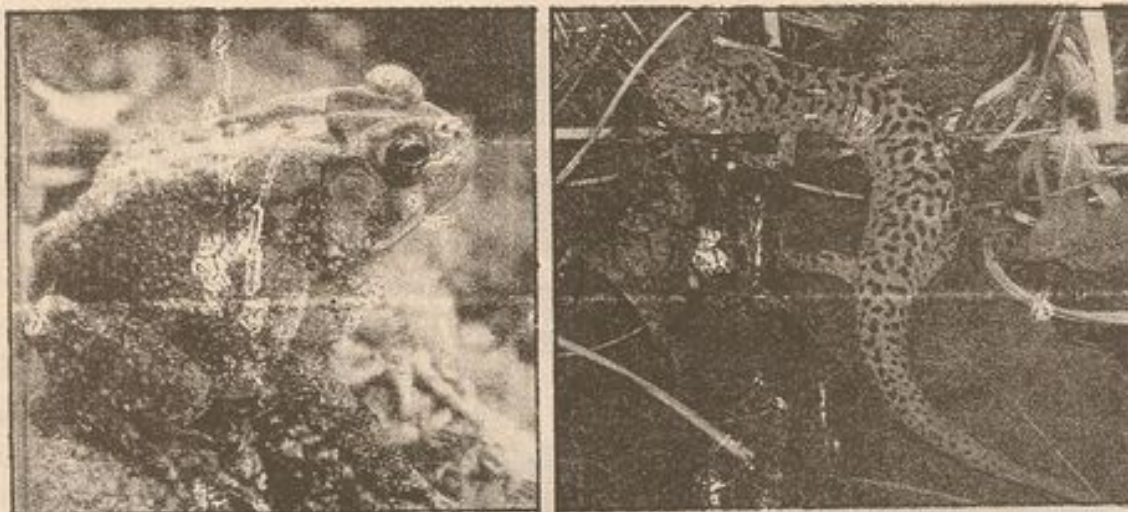

Figure 29
Amphibians

Today, There Are Three Main Types Of The Class Of The Amphibians. Amphibians Are Animals Which Are Capable Of Living On Land As Well As Water Or Animals Which Spend A Part Of Their Existence In Water. (1) Frogs And Toads. (2) Salamanders And Newts. (3) Caecilians. Frogs And Toads Have Short, Tailless Bodies And Long Hind Legs That Are Well Developed For Leaping. Salamanders And Newts Have Tails And Short Legs That Are Well Adapted For Walking. Caecillians Are Worm-Like Legless And Burrowing (Digging Into The Earth) Animals.

Figure 33
D. The Tuatara Is A Primitive Reptile.

Here Ends The 35,000th Year Of Creation, Or The Fifth Creative Day. El Eloah Created Everything Living In The Same Manner. Plants, Like Animals Are Also Living Things. Why? Because They Need The Same Basic Elements That Other Creatures Need In Order To Exist. El Eloah Has Placed Balancement In His Creation. This Is Why All Living Things Are Interdependent. The Plants Need Carbon Di-Oxide In Order To Produce

Energy, And In The Process, They Produce More Oxygen. The Animals Need Oxygen, And As A By Product Of Their Respiration, They Release Carbon Di-Oxide.

In The Food Chain, The Smallest Of Plants Are Food For The Smallest Of Animals Which In Turn, May Be Eaten By Larger Animals. The Abundance Of Vegetation That Was Made Possible Partly Through The Increase Of Sunshine After The Fourth Creative Period, Ensured A Large Supply Of Food For The Animals Which Were Yet To Come. (How Was It Possible For Some Creatures To Grow Into Such Massive Structures Such As The Whale?).

Figure 34
The Whale

All Organisms Increased In Size Through The Multiplication And Specialization Of Cells. Cells Are The Smallest Units Of Life. Their Increase In An Organism Means An Increase In Tissue Which Is An Increase In Mass. The Formation Of Different Types Of Tissue Is Accomplished When Groups Of Cells Work Together For A Specific Function. As Animals, Like Plants, Grew Larger And Larger And More Complex, They Needed A Greater Variation Of Tissues. These Formed Organs And Organ Systems. The Increase In Size Was Crucial For Some Species According To The Environments In Which They Developed. El Eloh Is The Fashioner And He Fashioned Many Things In Creation For Specific Purposes. Early Earth Was The Home Of Many Massive Species, Most Of Which No Longer Exist. Again, It Was By The Design Of El Eloh. The Massive Animals, Like The Microscopic Ones Played Their Part In The Development Of The Planet.

In All, It Took Some Time Before These Animals Developed Into The Kinds That We Are Familiar With Today. El Eloh Is The Yielder And The Controller Of His Creation. Although The Species Developed From The Simplest Form Of Life, They Developed Into A Wide Variety Of Many Different Characteristics. Still, El Eloh Established Limits Whereby No Group Outstepped Its Bounds And Became Mingled With Another. Once The Patterns Were Established, Once The Prototype Of A Species Was Complete, It Was Stabilized. It Would Therefore, Reproduce Copies Of Itself. Certain Species Were Allowed To Flourish And Yet Others Were Destroyed Or, Simply Overpowered By More Dominant Species. These Things Were Still In Accord With The Divine Will Of El Eloh.

The Extinction Of Animals Has Occured On Account Of Drastic Climatic Changes. Such An Incident Took Place During The Age Of The Great Reptiles. Scientists Are Still Trying To Overstand What Caused The Dinosaurs To Disappear From The Planet. Discoveries Of Their Fossilized Remains Have Been Quite Common And Seem To Indicate That They Perished In An Era When Very Cold Temperatures Dominated The Planet. In Recent Years, The Quest For The Clue To The Missing Dinosaurs Has Picked Up Momentum. Speculations Range From: (1) Overflowing Of The Arctic Ocean. (2) An Exploding Supernova Destroying The Ozone Layer. (3) A Volcanic Erupting On The Moon Producing A Ring Of Dense Particles Around The Earth. This Caused A Heavy Shadow To Blanket The Earth, Blocking Out The Light Of The Sun For A Significant Period Of Time. (4) The Earth Was Struck By An Asteroid, Causing Its Poles To Tilt, Throwing The Planet Into An Ice Age.

The Whales Of Today Are Descendatns Of Animals That Could Live On Land As Well As Their Original Home, Which Is Water. The Fact That The Whales Of Today Have Lungs Is Evidence That This Origin Stems From A Mammal That Once Lived On, Land As Well As Its Original Home, Water.

In Fact, The Whales Still Have The Bones Of A Five Fingered Hand Covered By The Skin And Flesh Of Their Paddle-Like Flippers. Whales Have Flat Tails Which Help Them To Rise Easily To The Top Of The Water For Air, And When They Swim, They Use Their Flippers As Oars. They Have No Scales Or Gills And The Skeletal And Circulatory Systems And The Brain Are Quite Unlike Those Of A Fish. The Whale Is Always Changing, Adapting Itself To A New Environment As Do All Living Things That Respond To The Condition "Survival Of The Fittest."

Ques: And What Of The "Winged Fowl?"

Ans: The Winged Fowl (Birds) Is A Descendant Of A Higher Order Of Fish Whose Fins Were Enlarged And Thinned, Thus Enabling Them To Fly Above The Waters. At First, It Merely Skimmed The Suface, But As Time Passed, Its Abilities Became More Developed And It Took Flight. There Are Still Some Varieties Of Fish That Are Known To Jump Out Of The Water And Glide Occassionally.

Figure 35
The Flying Fish

Birds Are Among The Most Widely Known Animals, And For This Reason, They Are Featured In The Legends And Myths Of Many Societies. Most Birds Are Capable Of Flight, Yet, There Are Others Who Are Not. Such Birds Are Very Large.

Figure 36
The Winged Fowl

Although Some Theories State That Birds Developed From Land Reptiles Which Took Flight, We Know That They Came From A Higher Order Of Fish. These Types Of Fish Had Enlarged Fins That Allowed Them To Fly Above The Water.

Figure 37
Fowl Of The Air

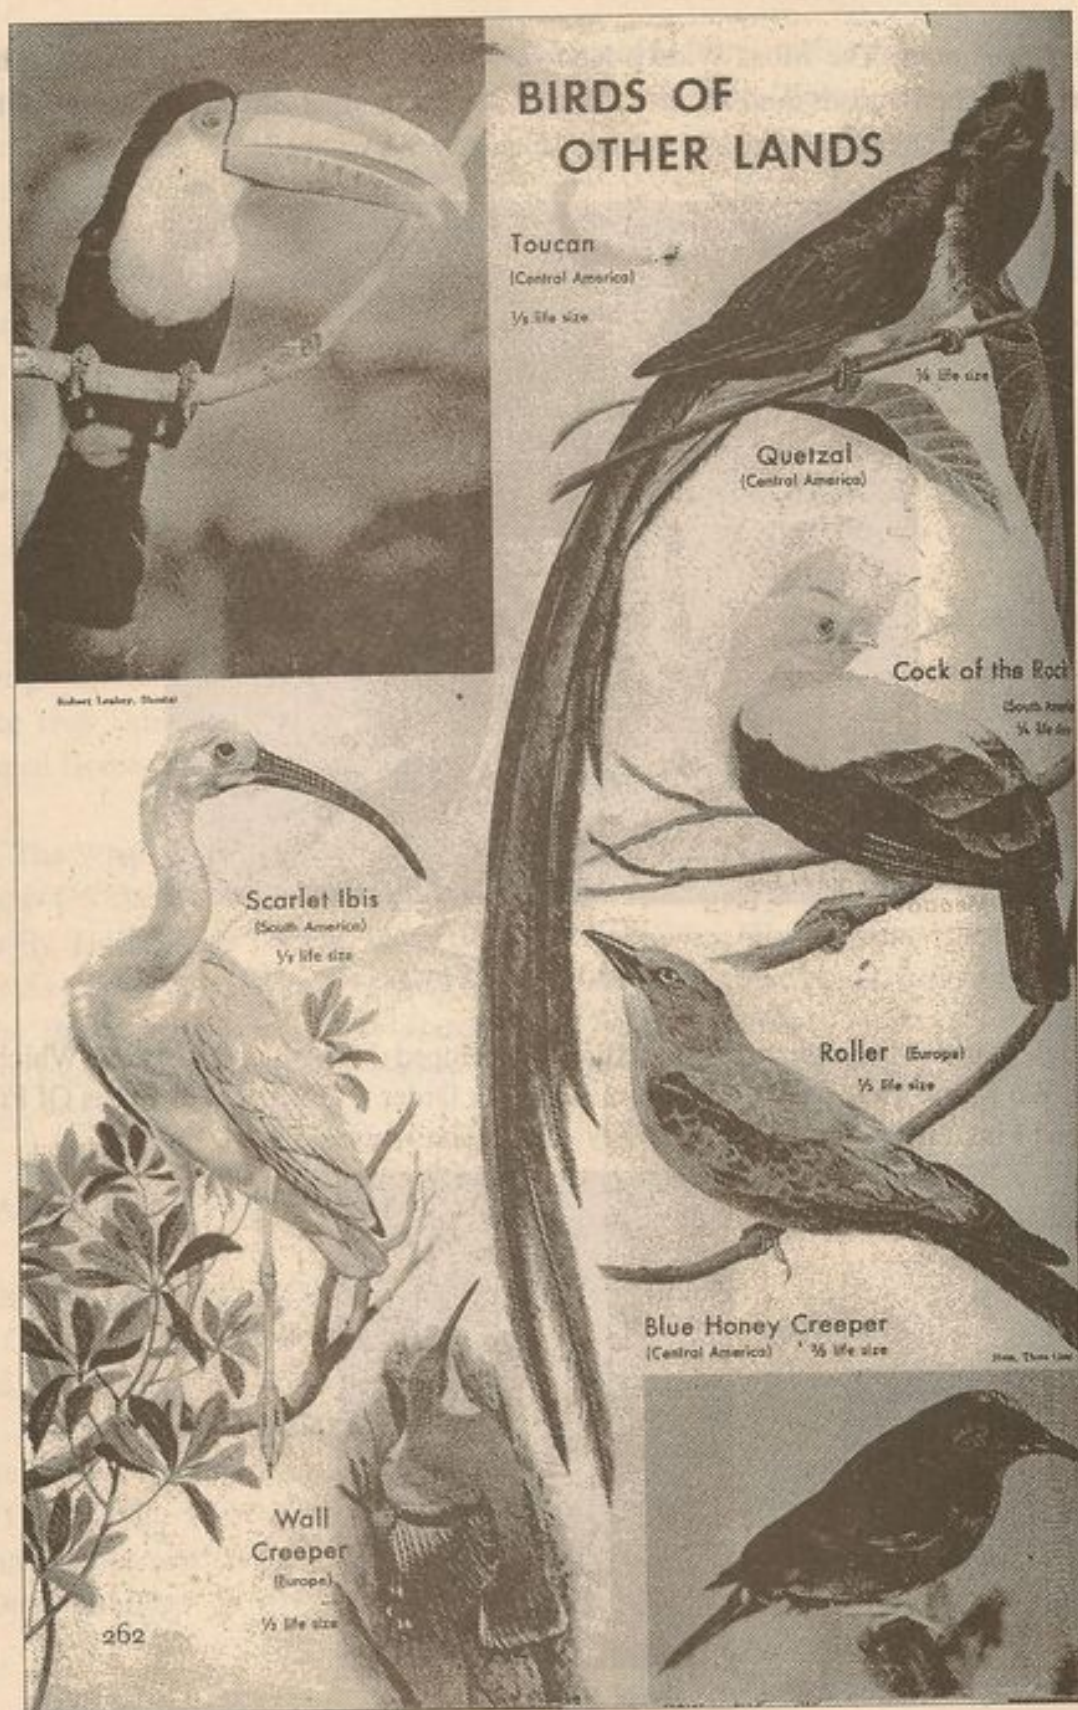

Figure 38

There Are Still Some Fish Today That Are Capable Of Flight Over Short Distances. Birds Come In A Wide Variety Of Colors, Sizes And Species. As Was Stated Earlier, The Animals Mated Within Their Own Species And Did Not Mix. But Something Happened That Tipped The Scales, Thus, Producing Disorder. Proof Of This Disorder Is Found In The Offspring Of Various Animals That Have Mated Outside Of Their Class. This Has Occurred With The Aid Of Human Being For Example:

The Bat: A Rat-Like Mammal With Wings. The Bat Is The Result Of The Unnatural Mating Of The Bird (Which Accounts For The Wings) And The Rat (Which Accounts For The Furry Appearance Of The Body). Bats Have A Keen Sense Of Hearing Which They Use To Guide Them In Their Flight. Their Wings Are Actually Five Fingers Covered By A Thin Membrane. Bats Are The Only Flying Mammals.

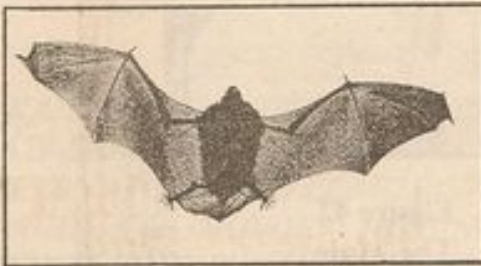

Figure 39

Bats Also Come In A Variety Of Species And Range In Size From Extremely Small (Wing Span Of Six Inches) And Extremely Large (Wing Span Of Five Feet). The Largest Of The Bats Are Called "Flying Foxes."

Figure 40

Bats Do Not Have Feet That Are Developed For Walking, So They Depend On Flying As A Mode Of Movement Even More Than Birds.

Aardvark: Is Commonly Referred To As An "Earth Pig." Some Scientists Claim That The Origin Of The Aardvark Is Unknown, It Is Described As Having A Stout "Pig-Like" Body, Long Snout And Powerful Short Legs. It Is Also Armed With Strong, Blunt Claws. We Know However, That This Animal Is A Mutation That Occurred On Account Of The Crossbreeding Of The Rat, Cat And Dog.

Figure 41
The Aardvark

Ligers And Tignons: Under Certain Conditions, As In Enforced Confinement Of Zoos, Tigers Have Been Known To Mate With Lions. The Offspring Of Such Relations Are Called "Tignons," When The Male Parent Is A Tiger And "Ligers" When The Male Parent Is A Lion.

The Mule: The Offspring Of A Horse And An Ass. Specifically, It Is The Result Of The Mating Of A Male Ass And A Female Horse. Mules Are Usually Sterile Because Of The Chromosomal Difference Of The Parents, This Interferes With The Normal Production And Maturation Of The Sex Cells. Thus Mules Are Incapable Of Reproducing Their Ownkind.

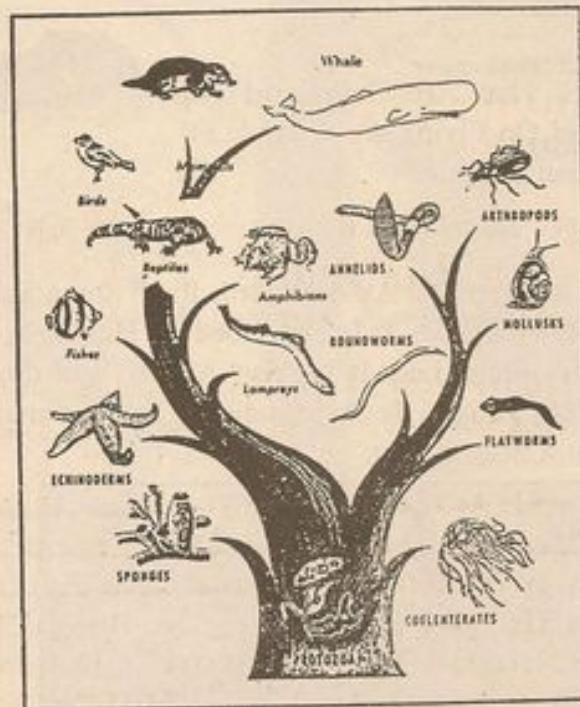

Diagram 42

This Drawing Shows The Tree Of Animal Life, Rising From The Lowest Form To The Highest. The Simplest Forms Of Animals Life Are The One-Celled Protozoa, Further Up The Tree Of Animal Life, The Differentiation Of The Cells For Special Purposes Becomes More Pronounced.

The Science Of Creation

Animals Which Have A Backbone And An Inter Skeleton Are Called Chordates. The Various Classes Of Chordates Are Shown In Italic, Capital And Lower Case Letters.

Ques: And As For The 6th Day?

Ans: In The 6th Day Of 7,000Years Making It 42,000 Years In *Genesis 1:31*.

Genesis 1:31

"AND GOD SAW EVERY THING THAT HE HAD MADE, AND, BEHOLD, IT WAS VERY, GOOD. AND THE EVENING AND THE MORNING WERE THE SIXTH DAY.

This Was The Preparation Made And Separating Of The Genes. At This Point, The **Yahuwa** Of The **Eloheem** Had Finished The Creation Of The Diverse Forms Of Life. The Earth Was Now Ripe, For The Coming Of Humans, Who Had Been Previously Created On The Spiritual Plane. It Was On The Spiritual Plane That This Being, Received The Education And Grooming That Were Necessary For His Existence Of Earth. When It Speaks About The Quote *Genesis 1:26* Where It States, And I Quote: *"And God Said, Let Us Make Man In Our Image After Our Likeness"* It Is Saying That Humans Were Merely A Reflection Of The **ANUNNAQI, ELOHEEM**. He Was To Possess Certain Qualities Which The **ANUNNAQI, ELOHEEM** Had, Yet He Would Not Be Like Them. It Was In This Way That Adam Was Created In The Likeness Of The **Anunnaqi**.

Adam Was Further Developed On The Spiritual Plane. Here, He Recieved The "X" And "Y" Chromosomes Of His Physical Body That Had Not Been Created Nor Made Yet. The "X" Represented The Female Factor, And The "Y" The Male. The Female Factor Was The Preparatory Stage For The Woman's Being, Or Physical Body On Earth. Thus, Both The Man And The Female Were One In Adam, *Genesis 3:23*. The Spiritual Self Of Adam Would Now Be Housed In A Shell Or "**Body**." Adam Was To Be A Superior Creation. For One Thing, He Knew Of The Nature Of The Angelic Beings Because He Had A Spiritual Body, And He Was Soon To Be Created In The Physical. He Would Possess Three Hundred And Sixty Degrees Of The Knowledge 180° Of Agreeable And 180° Disagreeable. He Was Also Given "**Muniyr**" منير (Inner Light) So He Could Rule The Earth With The Intellect Which **EL ELOH** Endowed Him With.

That Light Was The Spirit Of **El Eloh**, That Part Of **El Eloh** Which Is In And Through Every Mortal. This Special Part Of Him Is What The Darkness, Man's Body, Did Not Overstand For It Was Of Another World. The Body Was Physical And The "**Light**" Was Spiritual.

John 1:9

Ην Το Φως Το Αληθινον, Ο Φωτιζει Παντα Ανθρωπον, Ερχομενον Εις Τον Κοσμον.

THAT WAS THE AL-AY-THEE-NOS (TRUE) FOCE (LIGHT), HOS (WHICH) FO-TID'-ZO (LIGHTS) PAS (EVERY) ANTH'-RO-POS (HUMAN BEING) THAT ER'-KHOM-AHEE (COME) ICE (INTO) THE KOS'-MOS (WORLD).

That Was The True Light Force, Which Lights Up Every Human Being That Come Into This Physical World.

Right Translation In Greek By:

Dr. Malachi Z. York

Mistranslation For King James 1611 A.D.

"THAT WAS THE TRUE LIGHT, WHICH LIGHTETH EVERY MAN THAT COMETH INTO THE WORLD."

This Reconfirms The Fact That Within And Through Every Human Is The Creator. This Part Is Not Hidden: It Is Just Not Recognized By Many And Thereby Uncultured. But It Is Still There! It Was "True" In The Sense That Although It Appeared To Be Of A Foreign Nature, Its Potential Was Good And Compatible For Human.

Ques: Who Are The Anunnaqi?

Ans: The **ANUNNAQI** Which Means "*Those Who Anu Sent Down From Heaven To Qi (Earth)*," Is Just Another Name For The **RIZQIYIANS** Meaning "**Providers**". They Received The Name **ANUNNAQI** When They Came To Earth. First Let Me Explain This, There Were **900 ANUNNAQI** That Came On Nibiru From **RIZQ** All Together, But Only 600 Came All The Way Down To The Planet Earth. They Crashed Down In The Arabian Sea And Broke Up Into Groups Of 300. The First Three Hundred Decided To Move North West Of The Original Crash Site, To Set Up 7 Cities After Hearing The Disagreeable Sermons Of **ENQI** (One Of The Sons Of **ANU**) On The Ship. These 7 Cities Were: **Tilmun, Nippur, Qodesh, Siffur, Mu, Lumeria And Ashkolam (Alkebu-Lan)**. These Cities Were Later Headed By **Udum** And His Wife **Mami**.

The Other **300 Hundred ANUNNAQI** That Succumbed To **ENQI'S** Disagreeable Ways Stayed With **ENQI** And Moved To Iraq. They Broke Up Into 7 Tribes Or Cities Of 1) **Sippar** 2) **Kish** 3) **Kutha** 4) **Shuruppak** 5) **Uruk** 6) **Isin** 7) **Eridu** With "**Nod**" As Their Capital Named After **NUDIMMUD** Which Is Another Name For **ENQI**

These **ANUNNAQI, ELOHEEM** Mined For Minerals Such As Uranium, Plutonium, Gold And Scanned The Ocean Floors For Chlorine. This Group Of **ANUNNAQI** Further Divided Their Ranks Into Classes. There Were 3 Higher Classes Which Were Overseen By **NUSQU** And The 4 Lower Classes Were Overseen By **KALKAL**. Surveyers Went Out And Surveyed **South Africa And Monodappa** And Found Lots Of Gold There. This Is What Is Meant When It Says And I Quote: "*And The Gold Of That Land Is Good;...*" In **Genesis 2:12**.

Figure 43
The Anunnaqi Nusqu

Figure 44
The Anunnaqi Kalkal

So The **ANUNNAQI** Of The Lower Class Were Sent There To Work The Mines. The **ANUNNAQI** Couldn't Work The Mines Themselves. The Work Was Killing Them. They

Became What Is Called *Keslaan* (كسلاان) "Lazy" In The Ashuric/Syriac (Arabic) Language, Meaning They Became Lazy Beings, Noble By Birth Not Being Used To Hard Physical Labor. So They Wanted To Create A Being To Work For Them. These ANUNNAQI Became Dissatisfied And Began To Rebel Against The Higher Class Lead By NUSQU (Gabriy'el Zodoq).

By This Time ANU Had Given His Son, ENLIL (NUNAMNIR) Orders To Check On His Brother ENQI (NUDIMMUD). When Enlil Arrived To QI Also Known As Earth, He Found It In Chaos. ENLIL Then Sent Word To His Father ANU By His Messenger NUSQU (GABRIEL) Of What Was Happening On Earth Under The Leadership Of His Brother ENQI. NUSQU Then Returned With The Order For ENLIL To Take Over As EL MALIK (The Ruler).

Ques: Does This Bring About A Disagreement Between The Two Brothers?

Ans: Yes. This Caused A Rivalry Between The Two Brothers. However This Wasn't The First Cause. The Sibling Rivalry Began When, ANU's First Wife ANTUM Who Was Also His Half Sister, Gave Her Servant IYD To Her Husband To Have Children For Her. The Child Produced Was ENQI, ANU's First Son. An Etherian Messenger Later Came To ANU Saying He Would Have A Child By ANTUM Whose Name Would Be ENLIL, Who Would Be Ruler Of The Skies. ANTUM Became Jealous Of ENQI'S And ANU'S Relationship And Told ANU To Put ENQI And His Mother Out And ANU Complied. ENQI Became Disagreeable At This Point By Refusing To Step Down From The Ruling Seat And Refusing To Bow In Prostration To His Brother Disobeying His Father's Command Saying: *"I Am The Oldest, Why Should I Bow To Him?"* If The Conflict Had Continued That Was Not Only Going On With The Mines, But The Personal Conflict That Was On Going Between The Sons Of ANU, ENQI And ENLIL, It Would Have Resulted With The Destruction Of The Planet Earth.

A Council Was Put Together For The Sole Purpose Of Solving These Conflicts. **ENQI** Suggested That A Being Be Made, A Worker That Could Mine All The Gold From The Mines In South Africa For Them So They Wouldn't Have To Work. **ANU** Had Nothing To Do With This Experiment. The Council Agreed To Make What They Call A **LULU AMELU** Which Simply Means "*Primitive Worker*" An Adamah, Earthling. The First Experiment Was Done In **SHIMTI**, Which Means "*Where The Wind Of Life Was Breathed In*" Which Was A Laboratory.

This Was All Done In The Craft That Hovered Above Qodesh At The Tip Of The Mediterranean Sea Above Greece.

Diagram 43
Map Of The Island Of Patmos

The Science Of Creation

They Landed On The **Isle Of Patmos** Which Gets Its Name From The Greek Root **Patraloas** (πατραλαας) Which Is From The "Key Study Bible" Of The New Testament And Means "**Murderer Of Fathers**", For It Was At This Place That Adam's Father **ATUM** Was Killed.

"**Father**" Is Also **Pater** (πατηρ) In The Greek. For This Adam Was To Be The Father Of This New Race That Is Why **Genesis 1:27** Calls Both Adam And Eve, By The Name "Adam". In Hebrew You Would See **Ha Adamah** (האדמה). If It Were Talking About Adam And Eve It Would Have Called Them By Name **Zakar** - The "**Rememberer**" And Nekaybaw "**Tribal Leader**", But It Doesn't. It Says **Ha Adamah**, Which Means The Race Of "**Adamites, Those From The Ground**" Instead Of The Single "Adam".

The Eloheem (ANUNNAQI) Called "**Their Name Adam.**" That's Because At This Point He Was A Unisex Or Neutral Gender Until "**Female**" Was Taken Out Of Him (**Genesis 2:22-23**). The Original Male Species Was Given Chromosomes To Reproduce (X And Y) Being Able To Reproduce Without A Mate. However, The Female Species Is A Hybrid Of The Male Meaning She Is Not Able To Reproduce By Herself, Having X And X Chromosomes. So What Ever Type Of Child She Has, She Must Get The Other "X" Female Or "Y" Male Chromosome From The Male Species.

NINTI, The Daughter Of Anu Was The Brains Behind The Whole Experiment. She Took The Egg Of An **Apewoman** And Fertilized It With Purified "Essence" Which Is Called The **SHIRU** - The **Blood** Later Known As The **Flesh** Of A Male **ANUNNAQI**. They Took The **TEEMA** Of **NINTI's Blood** Called The **Personality**, Which Is Equivalent To The **DNA's** And **RNA's**, And Lastly The **Semen**, Of A Man Who Was **Homo Erectus** Of The **Ptahite** Bushman Called **QISRU** (Same As Alaq - علق) And Placed Everything Inside These **Apewomen**. To Get This Perfected Egg They Kidnapped 7 Males And 7 Females To Produce The Perfect Egg, That Was Implanted Into The Womb Of **NINQI**, Wife Of **ENQI**. She Gave Birth In 10 Month's Time Instead Of 9, By Way Of A **Caesarian**. This Experiment Was Repeated 7 Times To Get 7 Sets Of Twins, 7 Males And 7 Females, Before They Got Down To Breeding The Single Child Adam. They Were Tired Of Using Female Virgin **ELOHEEM (ANUNNAQI)** So **ENQI** Called To Start A Second Genetic Manipulation To Enable The Hybrid To Reproduce On Its Own. This Is The Second Breeding Process, Where A More Intelligent Being Had To Be Created, Not Only To Work The Mines, But Also To Do The File Keeping Of Logging At The Mines, Domestic Slaves And Servants.

The Blood Of **NINTI** Was Mixed With This New Breed, **Homo Erectus**. It Took Four (4) Species To Get To **Homo Sapiens**. The First Hybrid To Reproduce Was Named "**Mammi**",

Who Was The Mother Of **Anath**, The Mother Of **Nekaybaw**. Not To Be Mistaken With The Other **Mami**. Another Name For **NINTI** "Mother Of All Living". **Atum** And **Lillith** Came From Avatars Who Are Hindus That Descended On Earth From The Planet Of **Nirvana**, In The **Orion Star Constellation** Also Called **Singhe**. This Particular Breed Were Water Worshippers. Now It Was Time For The Breeding Of The Perfect Being.

Figure 49

Ninti Daughter Of Anu

Three Of The **ANUNNAQI, ELOHEEM** Were Sent To Fashion **Zakar** And **Nekaybaw**, (The Superior Beings). The First Being Sent Was The **ANUNNAQI NUSQU**, Who Bore The Title **Gabriel**. **NUSQU** Was Commanded To Bring A Handful Of **Loam** Endowed With Different Qualities From The Surface Of The Earth. **NUSQU** Started On Wings Of Haste From His Place, Traversing The Constellations Of The Skies And Elemental Orbs.

Upon Arriving On The Surface Of The Planet Earth, **NUSQU** Went To The Tribe Of The **Atumites**. He Stretched Forth His Hands To Execute The Command. This Fearful Attempt Moved The Vapors Imprisoned For Ages In The Bowels Of The Earth, And Caused A Terrible Earthquake, Where On, The Soil Interrogated **NUSQU** Who Replied, "The **YAHUWA** Of The **ANUNNAQI, ELOHEEM** Intends To Create A Human From Thee: To Dignify His Head With The Diadem Of Khalifaship, Successorship, And To Adorn His Stature With The Robe Of Magnificence." And The **Atumites** Enjoined, "I Have Refuge With **Yahuwa** From Thee: I Adjure By The **YAHUWA** Of The **ELOHEEM** To Desist From His Purpose, Lest He Create Of Me An Individual Who Would, Like The Sons Of The **Luciferians** Attempt Stratagems Of Disobedience, And Would Consequently Be Punished And Condemned. I Have Not The Power To Resist The Wrath Of **Yahuwa** And The Punishment Of The Most High Ruler." **NUSQU** Heard The Entreaties Of The Earth, And Pitying Its Helplessness, Returned The Same Way By Which He Had Descended And Laid His Information Before The **Yahuwa** Of The **ELOHEEM**.

The **ANUNNAQI, Malachi Zofokq** Also Descended Upon The Planet Earth, And The Same Took Place And He Returned. So, **ENQI**, Who Is Also Known As **Izrael** Then Came To The Two Tribes And Asked The Same Question The Tribes Again Implored And The Earth Began To Lament And Cry. **ENQI** Said, "It Is More Incumbent Upon Me To Obey The Nourisher Than To Have Pity On Thee." Accordingly, He Collected A Handful Of Black Mud From The Surface Of The Earth Combined Of Different Colors And Properties. This Is Where Enqi Received The Name Angel Of Death. (Read To The Holy Tablets Chapter Ten, Tablet 31)

Zakar (Adam) Son Of Atum And Lillith (Not To Be Mistaken With The Lilith Of 200 Fallen Eloheem), And Nekaybaw (Eve) Daughter Of Ptah And Anath Were Born Of The Two Tribes Of Ptahites (Cushites), And Atumites, (Cuthites); But Were Taken To The Land Of Kodesh To Be Raised Away From Their Kindred (Agreeable And Disagreeable Eloheem). Most People Are Under The Impression That The Enclosed Garden Is Some Mystical Place. In The Time Of Zakar And Nekaybaw, This Garden Was Located On Earth And Was Known As Gan (גן). Gan Is Known As Arabia Today. (גן, Saw-Deh) Ganawa (The Outer Garden Called Outer Field Or (سودان, Sudan) Today Is Known As Africa, O Ganawa. This Was The Land Mass That Had Split. The Name Has Been Changed To The Land Of Africa. The Planet Was Off Its Axis, So To Go From Nubia To The Persian Gulf Would Be Upward

Nekaybaw Was Residing In Kodesh, Called Sinai Today In Jerusalem, From Age 1-18. She Had A Playmate Named "Anat" Daughter Of Mami And Udum, Who Considered Nekaybaw A Dear Friend. After Zakar Was 21 And Nekaybaw Was 18 They Were Taken Down To The Land Of Gan (Arabia Today) To Be Raised. At This Time There Were Many Tribes Of Agreeable Eloheem And Disagreeable Eloheem Roaming The Earth.

The Science Of Creation

The ANUNNAQI Informed Adam Of All The Things That He As Khaliyfah (Successor) Was Responsible For In His Newly Acquired Kingdom. He Was To Be The First Successor On Earth Because He Continued With That Work Which The Anunnaqi Had Rested From. His Rulership Would Be Over All That Was Upon The Face Of The Earth. It Is Now 42000 Years Or Six Days Of Creation.

Here Ends Adam's Time Spent On The Spiritual Plane With The Anunnaqi. Upon Leaving, He Was Caused To Die, It Was On Earth That He Would Be Restored To Life. When It Speaks About The Yahuwa Of The Eloheem Desisting From His Work, It Is Speaking About The Fact That He Did Not Enter The Seventh Creative Period With Humans. His Creative Work Of All Things, Spiritual And Earthly, Had Come To An End. We Have Now Entered The 49,000th Year Or Seven Days Of Creation.

It Is Now The Seventh Day And Those "Created" Things Had Not Yet Come Into Material Existence. The Day, The Shadow Hours, The Evening, The Water, The Grass, Stars, Animals And Man-- Nothing Had Entered The Realm Of The Physical. They Were Merely The Drawn Plans And Parts Of El Eloh's Blueprint. He, Who Is The Engineer Of Engineers, Had The Exact And Detailed Plan Of What Was To Be. The Created Things Had Yet To Be "Made." Once Made, They Would Come Into Existence In The Same Precise Order In Which They Were Created. Overstand This: To Create, Is To Bring About Something From Nothing Which Is What El Eloh Did. To Make Is To Manifest The Things That Had Already Been Created -- To Bring About A Physical Manifestation, In Other Words.

AS ABOVE SO BELOW

As The Mist (Water Vapor) Descended Upon The Planet Earth And Mixed With The Dust And Carbon Particles That Were On The Surface, A Rich, Black And Muddy Substance Was Formed. It Was Out Of This Material That The Body Of Adam Was Formed.

The First Part Of The Book Of Genesis Deals Only With Those "Created Things" And The Second Chapter Is Concerned With The Making Of Those Created Things. These Occurrences Support The Mystical Saying: As Above, So Below. The Black Mud Was Shaped And Molded For The Body Of Adam. Into The Black Substance, The Divine Breath Of Life Was Breathed. It Was This Breath, The True Light Of El Eloh That Brought The Blackness To Life. The Breath Of Life Was So Powerful That It Raised The Black Form From Death To Life, Making It A "Living Soul." He Was A Man Named Adam, A Creature Of Unique Beauty, Complete And Perfect. What Was Unique About This Creature Was His Inherent Ability To Reproduce. He Also Possessed A Higher Intellect That Gave Him Rulership Over All Other Creatures. The First Human Was Made From All The Elements That Formed The Earth, It Was Then Baked In The Sun. After This Creature Was Complete, He Was Placed In A Garden That Had Been Prepared By The ANUNNAQI ARAZU. Arazu's Job Was To Construct The Garden, And Plant It Eastward In Eden.

Eden Occupied The Whole Area Between The Nile Basin And The Tigris-Euphrates Valley. The River Which Went Out And Watered The Garden Was The Mediterranean Sea As It Is Called Today. The Four Heads Into Which It Parted Are The Rivers Tigris, Euphrates, The White Nile And The Blue Nile. Together, These Formed The Cradle Of The Early Cultures Of Sumer And Akkad Which Later Gave Way To Chaldea And Babylonia. The White And Blue Nile Are The Two Branches Of The Nile River. The Area Drained By These Two

The Science Of Creation

Rivers Was Also The Cradle Of The Great Culture - That Of The Mizramites, The Ancient Egyptians.

Looking At A Map Of The Area Today, This Arrangement As Shown Below May Seem Improbable. The "Fertile Crescent," As Some Historians Have Called This Area, Has Undergone Much Geographical Changes. For One Thing, The Courses Of The Rivers Have Change. Such Occurences Came About As A Result Of The Shifting Of The Earth's Axis. The Body Of Adam Was Formed Of Black Mud At The Junction Of The Two Niles In Sudan.

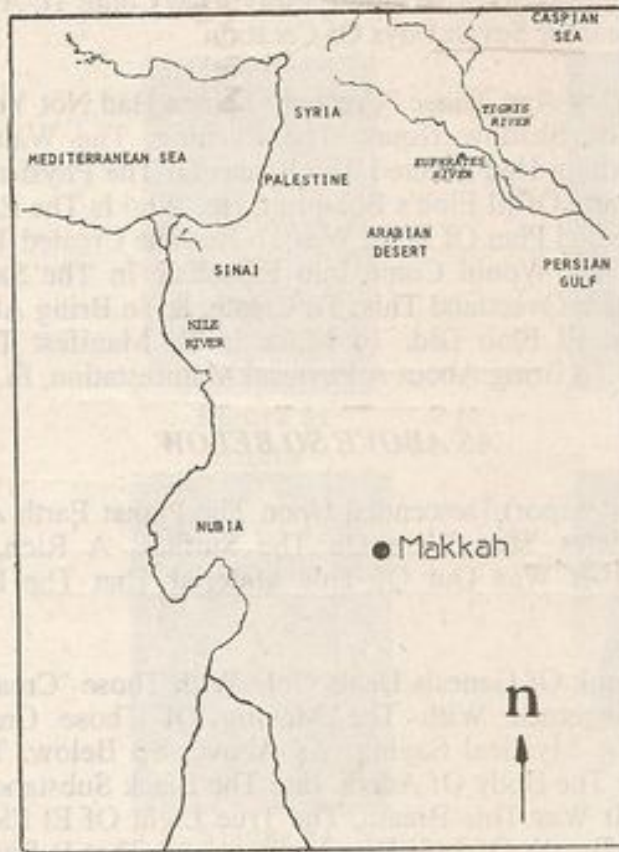

Diagram 44
Location Of The Garden Of Eden

The **Anunnaqi, Eloheem** Gave Adam And Hawwah The Ability To Procreate, To Beget After His Likeness. The Sperm Was The Seed Of Human, It Was Produced And Stored Temporarily In The Testicles. The Seed For Future Generations Was Found In The Seminal Fluid, A Composition Of Secretions From The Male Sex Glands. This Fluid Is Stored In The Testicles In A Network Of Canals And Reservoirs. In A Single Ejaculation, An Average Of 777 Million, 777 Thousand And 777 Hundred (777,777,777) Of The Sperm Cells Are Released. Out Of This Great Number, Only One (In Some Cases Two) Will Penetrate An Egg Of The Female. These Two Cells Together, Will Form One Entity -- A Zygote, It Is At This Point That Conception Begins (*Refer To Humans Were Created From, Scroll #17*).

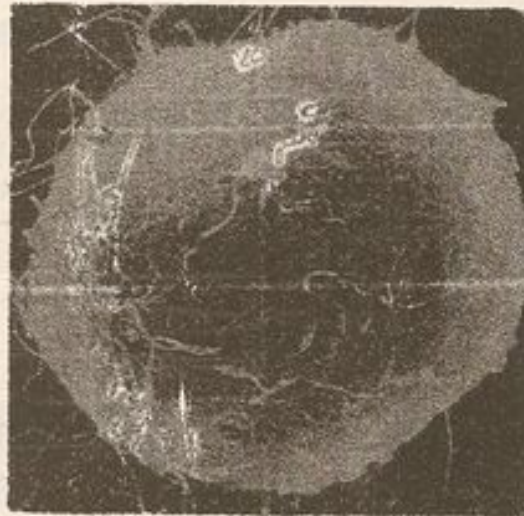

Figure 57

So You See That The Process Of Reproduction Requires The Union Of A Pair. Interestingly Enough, The First Stage Of The Development Of The New Entity Also Involves A Pair. Meaning, After The Ovum Is Fertilized, It Divides Into Two As Do All Cells In Their Initial Stages Or Division.

Ques: In The Book Of Genesis, It Says That Eve Was Taken From The Rib Of Adam, Can You Explain That Please?

Ans: The Great Pharmacist, And Chemist Nergal Shar'etsar Ruler Of The Underworld, Was Also Involved In The Breeding Process Of The New Beings (Homo Sapiens). When Adam Was A Child Of Two Years Of Age, Three Years Of Real Time, The Scientist Nergal Went Into His Bone Marrow To Take Blood To Mix It In To Create Eve, Which Was Then Implanted Into The Womb Of Anath, Mother Of Eve. This Bone Marrow Is What Religious Scholars Say Is The Rib (Tsala' (צלע) In The Bible.

GENESIS 2:22-23

ויבן ידוה אלהים את-הצלע אשר-לקח מן-האדם לאשה ויבאה אל-האדם

And From The X Chromosomes Which Yahuwa Of The Eloheem Ordered The Great Scientist Nergal Shar'etser To Take From Adam, He Genetically Bred In The Genes Of Ptah [Cushites, Bushmen Tribe] And Anath [Havilahites, Dogon Tribes] A Female Child Eve And Brought Her From Qodesh, Where She Was Born To The Enclosed Garden To Adam.

Ques: According To Genesis 2:22-23, If One Of Adam's Ribs Was Removed To Make Eve His Mate. Wouldn't That Mean That Men Should Have One Less Rib Than Women?

Ans: According To The Jehovah's Witnesses (Aid To Bible Understanding), They Say That When The Rib Was Removed From Zakar To Create Eve, The Bone Grew Back And Therefore Males And Females Have The Same Amount Of Ribs 24 In All. The Seventh-Day Adventists (Bible Commentary) Say The "God" Removed His Rib By Way Of Surgery And Replaced It With A Piece Of Flesh. But Wouldn't That Mean Males Have One Less Rib And More Flesh Than Females?

Let's Take A Look At The Word Rib:

Rib In Aramic (Hebrew) Is **Tsala'** (צלע) Meaning Lamed, Crippled, Maimed, Made To Fall. Its Equivalent In Ashuric/Syriac (Arabic) Is **Dil'a** (ضلع) With The Same Meaning - To Limp, Walk With A Limp, Walk Lamely. However, The Word That Is Found In The Ashuric/Syriac (Arabic) Bible Is Word **Dala'a** (ضلع) Meaning "To Side With, To Be Strong, Sturdy, Robust, To Be Crooked, Bent, Curved, To Curve, Rib, Cutlet, Chop; Side, The Chest, The Breast."

Now If This "Rib" Is Taken From The Man (Iysh, איש) Meaning "Male Living Being, And Can Grow Back, According To The Jehovah Witnesses, How Could One Rib Form Another Whole Human - The Woman (Ishshah, אישה) A Whole Skeleton Was Able To Form By This One Rib?

The Only Way Medically A Bone (Estsem, עצם) Meaning, "Bone, Essence, Substance, To Crush Bone, To Break Bone, Close, Mighty, Strong From Root Word **Atsam** (אצם) Meaning, "To Be Vast, Numerous, Mighty); Could Be Used In Such An Operation Is Through Cloning. The Marrow Which Creates Blood Would Be Taken From The Bone And Cloned. Bone Marrow Is Located In The Cavities Of Bones In Human Beings. At Birth The Bone Marrow Makes Up 2.3 Percent Of The Total Body Weight. In Adult Human Beings It Makes Up 2.1%-4.9% Percent Of The Total Body Weight. Its Volume Is Larger In The Male Than In The Female. Bone Marrow Is Of Two Types Red (Blood Forming Tissue) And Yellow (Fat Tissue). At Birth, In Humans, Until About The Age Of Seven The Color Of Bone Marrow Is Red. In The Adult, The Red Bone Marrow Is Present Only In The Bones Of The Skull, Breastbone, Ribs, Collarbone, Spinal Column, And The Proximal Portion Of The Thigh Bone And Upper Arm Bone. When Blood Cells Or Bone Marrow Is Taken From The Bone It Is Only Extracted From Certain Bones: The Breastbone Or Sternum, In Adults And From The Upper Part Of The Tibia, The Inner, Larger Bone Of The Lower Leg, In Children. The Method In Which Samples Of Bone Marrow Is Taken Is By The Aspiration Technique - Suction Through A Hollow Needle.

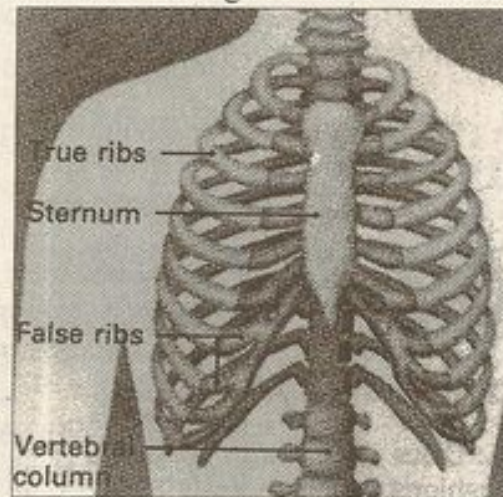

Diagram 45

The Science Of Creation

For The ANUNNAQI Scientists The Ideal Or Choice Place To Take The Blood Of Adam For Cloning Purposes Was In The Bone Marrow. All Species Were Created In Pairs. From The First Form Of Life, The One-Celled Organism To The Great Dinosaurs And Whales. It Was By Way Of The Union Of Two Cells That All Things Multiplied In The Earth. These Days, Scientists Are Taking The Subject Of Divine Creation Of The Universe With Great Interest. Some Had Abandoned The Old Hypothesis And Are Examining The Subject In The Light Of The Scriptures. Some People Felt Very Strongly About This And Have Demanded That The Book Of Genesis Be Taught As A Regular Subject In Schools. While Others Are Quite Happy About The New Developments In Western Thought, A Small Minority Are Afraid Of Its Religious Implications, From All Appearances, The Trend Will Only Increase As Mankind Are In Search Of More Relevant Explanations Of Their Existence On The Planet Earth. After All Of This Was Done, The Anunnaqi, Eloheem Rested From Their Work Of Replenishing The Earth, And Beings That Lived On The Earth, As Well As In Earth, As Well As In The Skies. And On This Day Was The Creation Of What You Call The Sabbath Day. This Was Their Sabbath.

Genesis 2:2

וַיְכַל אֱלֹהִים בַּיּוֹם הַשְּׁבִיעִי מְלָאכְתּוֹ אֲשֶׁר עָשָׂה וַיִּשְׁבֹּת בַּיּוֹם הַשְּׁבִיעִי
מִכָּל-מְלָאכְתּוֹ אֲשֶׁר עָשָׂה:

WA (AND) HA (THE) SHEB-EE-EE' (SEVEN) YOME (DAY) ELOHEEM (THESE BEINGS) KAW-LAW' (FINISHED PREPARING) HIS MEL-AW-KAW' (DUTY, WORK) ASH-ER' (WHICH) HE AW-SAW' (FASHIONED, MADE APPEAR); WA (AND) HE SHAW-BATH' (DESISTED) HA (THE) SHEB-EE-EE' (SEVENTH) YOME (DAY OF 7,000 YEARS) FROM KOLE (ALL) HIS MEL-AW-KAW' (DUTIES) ASH-ER' (WHICH) HE HAD AW-SAW' (MADE APPEAR, FASHIONED).

And The Seventh Day The Eloheem Enqi "Nudimmud [Izraa'el] Of The Anunnaqi" Finished His Duty Which He Had Done And He Desisted; And Kept The Shabbath In The 7th Day From All His Duties Which He Had Done.

Right Translation In Aramic (Hebrew) By:

Dr. Malachi Z. York

Mistranslation For King James 1611 A.D.

AND ON THE SEVENTH DAY GOD ENDED HIS WORK WHICH HE HAD MADE; AND HE RESTED ON THE SEVENTH DAY FROM ALL HIS WORK WHICH HE HAD MADE.

This Was The End Of The Re-Plenishing Of The Planet Earth. And On This Special Day The Anunnaqi, Eloheem Rested. This Is The Day Of The Sabbath.
